File No. 18-0021

INFORMATION, TECHNOLOGY, AND GENERAL SERVICES COMMITTEE REPORT relative to the lease of dock space from the Port of Los Angeles (POLA) for berthing the Bureau of Sanitation's (BOS) Marine Surveyor vessel.

Recommendation for Council action:

AUTHORIZE the Department of General Services (GSD) to negotiate and execute a lease for dock space, from the POLA for berthing the BOS's Marine Surveyor vessel at the Cabrillo Way Marina, 2293 Miner Street, pursuant to the terms and conditions substantially outlined in the GSD report dated December 21, 2017 (attached to the Council file).

Fiscal Impact Statement: The GSD reports that this action will not impact the General Fund. The lease costs $1,595 per month for the first year with annual increases of approximately three percent and will be funded by the Sewer Construction and Maintenance Fund.

Community Impact Statement: None submitted.

SUMMARY

In the report to Council dated December 21, 2017, GSD requests authority to lease dock space for berthing the BOS's Marine Surveyor Vessel at the Cabrillo Way Marina. The City is currently leasing Berth 76E in the Ports O' Call Marina, which can no longer be used because the marina is being redeveloped. POLA recommended relocation to the Cabrillo Way Marina. BOS supports the relocation to the new site.

According to GSD, BOS's Environmental Monitoring Division operates the Marine Surveyor to perform Federal and State mandated environmental monitoring in the Los Angeles Harbor for the Terminal Island Treatment Plant to remain in compliance with the Clean Water Act. BOS staff currently performs surveys from two primary monitoring vessels docked in Berth 76E. The surveys are legally required either by the National Pollutant Discharge Elimination System or the U.S. Environmental Protection Agency and the Los Angeles Regional Water Quality Control Board. To fulfill these legal requirements, BOS's scientists and boat crews conduct sampling of invertebrate tissue, debris, water and microbiology. They spend an average of 77 days completing daily survey tasks on the Marine Surveyor vessel.

GSD further reports that given the restriction on leasing property in the areas where Port development projects are occurring, Cabrillo Way Marina offers the only spot for BOS to use. On December 21, 2017, the Municipal Facilities Committee (MFC) approved GSD's request.

At its meeting held January 23, 2018, the Information, Technology, and General Services Committee recommended that Council authorize GSD to negotiate and execute a lease for dock space at the Cabrillo Way Marina for BOS, as recommended by the MFC.

Respectfully Submitted,

INFORMATION, TECHNOLOGY, AND GENERAL SERVICES COMMITTEE

Monica Rodriguez
