ENVIRONMENTAL QUALITY AND WASTE MANAGEMENT COMMITTEE

report as follows:

	<u>Yes</u>	<u>No</u>
Public Comments	<u>XX</u>	<u>—</u>

ENVIRONMENTAL QUALITY AND WASTE MANAGEMENT COMMITTEE REPORT relative to designating a geographical area within the Sun Valley as the Sun Valley Environmental Justice Improvement Area (Area).

Recommendations for Council action, pursuant to Motion (Cardenas - Padilla - et al.):

1. DESIGNATE the geographic area within the Sun Valley bounded by Glenoaks Boulevard to Sunland Boulevard/Vineland Avenue to Strathern Street to Lankershim Boulevard to Haddon Avenue to Montague Avenue to Glenoaks Boulevard as the Sun Valley Environmental Justice Improvement Area.
2. REQUEST the City Attorney to report in 60 days on the status of the multi-agency Sun Valley Environmental Task Force, including a description of inspections to date and pending enforcement actions.
3. DIRECT the Planning Department to refer to the Environmental Affairs Department (EAD), for review and comment, all pending and future land use applications relating to active or closed landfills, solid waste, auto-dismantling or recycling facilities within said Area. INSTRUCT the EAD to report in 60 days on resources and funding that will be needed to perform said reviews.
4. INSTRUCT the Planning Department to refer to the Los Angeles Fire Department (LAFD), for review and comment, all pending and future land use applications for facilities proposing to use non-exempt quantities of listed hazardous materials within said Area. DIRECT the LAFD to report in 60 days on resources and funding that will be needed to perform said reviews.
5. DIRECT the Planning Department to post at the Sun Valley Public Library a copy of pending and future discretionary land use applications for industrial facilities within said Area, along with applicable dates for public hearings and time lines for receipt of written public comments.
6. INSTRUCT the Planning Department to complete a written study, including conducting three local public hearings in Sun Valley by May 31, 2004, that proposes design guidelines and standards for the establishment, expansion, continuation and reuse of industrial facilities within said Area. The Planning Department is to consult with local Neighborhood and Community Advisory Councils, residents, businesses, the Chamber of Commerce, and City departments.

7. DIRECT the Planning Department to report to the Planning and Land Use Management (PLUM) Committee within 90 days regarding its efforts to improve coordination of comprehensive planning efforts within said Area and to report within 60 days on funding requirements.
8. INSTRUCT the Department of Recreation and Parks to report to the PLUM Committee within 90 days on the existing inventory of parks and recreation centers within the Sun Valley.

Fiscal Impact Statement: Neither the City Administrative Officer nor the Chief Legislative Analyst has completed a financial analysis of this report.

Summary:

According to the Motion (Cardenas - Padilla - et al.), the Sun Valley, with approximately 46,000 residents and businesses, is located in the northeast San Fernando Valley in Council District Six. The Sun Valley is located southeast of Pacoima where the 5 and the 170 freeways meet and is bisected by the Union Pacific Railway along San Fernando Road. There are ten elementary and secondary schools located in said area. The Motion also notes that according to recent census reports, approximately 70% of Sun Valley residents are Latino and 17% live in poverty.

The Motion states that at recent public meetings, Sun Valley residents alleged that poor air quality negatively affected the health of residents. Also, South Coast Air Quality Management District modeling indicated that the Sun Valley contains one of the top 100 excess cancer risk grids for stationary sources in the South Coast Air Basin. Furthermore, the University of California, Los Angeles Department of Family Medicine is conducting a Sun Valley Asthma Screening and Early Intervention Program, and preliminary results indicate a prevalence of asthma among middle school students in the Sun Valley.

In addition to this, the Motion also describes the responsibilities of City departments in relation to environmental regulation. The EAD regulates permitting and inspection of solid waste and certain recycling facilities within the City. Also, the EAD provides technical and financial assistance to environmentally impaired industrial sites and fosters the use of green technology. Meanwhile, the Planning Department regulates zoning and land use permitting decisions in the City. The LAFD regulates industrial use of hazardous materials in the City. Finally, the City Attorney's Office, Sun Valley Environmental Task Force, formed in January 2003, addresses environmental issues relating to auto-dismantling businesses in the Sun Valley.

At a special meeting held on April 13, 2005, representatives from the community and Council District Six updated the Environmental Quality and Waste Management Committee on the steps taken to establish the Sun Valley Environmental Justice Improvement Area. After a brief discussion, the Committee approved the recommendations contained in the Motion. This matter is now forwarded to the Council for its consideration.

Respectfully submitted,

ENVIRONMENTAL QUALITY AND WASTE MANAGEMENT COMMITTEE

PLANNING AND LAND USE MANAGEMENT COMMITTEE

report as follows:

Public Comments	<u>Yes</u>	<u>No</u>
	<u>XX</u>	—

PLANNING AND LAND USE MANAGEMENT COMMITTEE REPORT relative to designating a geographical area within the Sun Valley as the Sun Valley Environmental Justice Improvement Area.

Recommendations for Council action, pursuant to Motion (Cardenas - Padilla - et al.):

1. CONCUR with the recommendations of the Environmental Quality and Waste Management Committee report dated July 5, 2005, relative to designating the geographic area within the Sun Valley bounded by Glenoaks Boulevard to Sunland Boulevard/Vineland Avenue to Strathern Street to Lankershim Boulevard to Haddon Avenue to Montague Avenue to Glenoaks Boulevard as the Sun Valley Environmental Justice Improvement Area.
2. INSTRUCT the Planning Department to add to the Sun Valley Environmental Justice Improvement Area boundaries to the west and northwest in Council District Seven, to the immediate west in Council District Six, and to the extreme southeast in Council District Two.
3. REFER the request in the Motion (Cardenas - Padilla - et al.), to the City Planning Department as lead, City Attorney, Environmental Affairs Department (EAD), Los Angeles Fire Department (LAFD), Community Development Department (CDD), and the Department of Recreation and Parks, along with the assistance of the Sun Valley Environmental Taskforce, and request a status update within 60 days.
4. REQUEST the LAFD, EAD, City Planning Department (and any other fiscally impacted City department) to report on the resources and funding that it will need to comply with the intent of Motion (Cardenas - Padilla - et al.).

Fiscal Impact Statement: Neither the City Administrative Officer nor the Chief Legislative Analyst has completed a financial analysis of this report.

Summary:

According to the Motion (Cardenas - Padilla - et al), the Sun Valley, with approximately 46,000 residents and businesses, is located in the northeast San Fernando Valley in Council District Six. The Sun Valley is located southeast of Pacoima where the 5 and the 170 freeways meet and is bisected by the Union Pacific Railway along San Fernando Road. There are ten elementary and secondary schools located in said area. The Motion also notes that according to recent census reports, approximately 70% of Sun Valley residents are Latino and 17% live in poverty.

The Motion states that at recent public meetings, Sun Valley residents alleged that poor air quality negatively affected the health of residents. Also, South Coast Air Quality Management District modeling indicated that the Sun Valley contains one of the top 100 excess cancer risk grids for stationary sources in the South Coast Air Basin. Furthermore, the University of California, Los Angeles Department of Family Medicine is conducting a Sun Valley

Asthma Screening and Early Intervention Program, and preliminary results indicate a prevalence of asthma among middle school students in the Sun Valley.

In addition to this, the Motion also describes the responsibilities of City departments in relation to environmental regulation. The EAD regulates permitting and inspection of solid waste and certain recycling facilities within the City. Also, the EAD provides technical and financial assistance to environmentally impaired industrial sites and fosters the use of green technology. Meanwhile, the Planning Department regulates zoning and land use permitting decisions in the City. The LAFD regulates industrial use of hazardous materials in the City. Finally, the City Attorney's Office, Sun Valley Environmental Task Force, formed in January 2003, addresses environmental issues relating to auto-dismantling businesses in the Sun Valley.

The Motion was referred to the Environmental Quality and Waste Management Committee and the Planning and Land Use Management Committee. At a special meeting held on April 13, 2005, the Environmental Quality and Waste Management Committee approved the recommendations contained in Motion (Cardenas - Padilla - et al.), and made two additional recommendations, similar to those in the Motion.

On June 15, 2005, the Planning and Land Use Management Committee reviewed the Motion and the recommendations of the Environmental Quality and Waste Management Committee. At this meeting the matter was continued until July 6, 2005, at the request of Councilmember Cardenas, in order allow additional time for review by the affected Council office/districts, City departments, Sun Valley Environmental Task Force, and community.

At July 6, 2005, Planning and Land Use Management Committee, staff from the Planning Department identified the boundaries of the Sun Valley Environmental Justice Improvement Area, and reported that the Sun Valley community plan area contains 10,618 acres of land in which almost 20% is industrial. Staff reported that "The Environmental Justice Area" accounts for about 1500 acres of land. Staff further reported that at the request of the Council offices, boundaries in the area have now been modified to add areas to the west, and northwest to include portions of Council District 7, to the immediate west in Council District 6, and to the extreme southeast which includes portions of Council District 2. In addition, it was reported that this land is zoned entirely for industrial land uses. Planning staff added, that in many cases these industrial uses are close to residential areas. In addition, staff reported that a system and procedure has been proposed to allow for review and public hearings on new applications for use to determine if there will be environmental impacts, and if necessary to propose mitigation, of negative environmental impacts.

The City Attorney briefly discussed enforcement efforts in the City, and specifically in Sun Valley. The Department of Recreation and Parks, and other City Departments also testified at the hearing.

Councilmember Cardenas, clarified that as a part of the City's efforts, community meetings will be continued for all interested parties to review proposals related to environmental justice issues related to the Sun Valley Environmental Justice Improvement Area.

Several speakers, including members of the Sun Valley Area Neighborhood Council, and East Valley Coalition provided testimony, and spoke in support of the "the Sun Valley Environmental Justice Improvement Area."

After a brief discussion, and in consideration of public testimony provided, the Committee concurred with the recommendations of the Environmental Quality and Waste Management Committee in its report dated July 11, 2005, and requested that Council also do the following:

1. REFER the request in the Motion (Cardenas - Padilla - et al.), to the City Planning Department as lead, City Attorney, Environmental Affairs Department (EAD), Los Angeles Fire Department (LAFD), Community

Development Department (CDD), and the Department of Recreation and Parks, along with the assistance of the Sun Valley Environmental Taskforce, and request a status update within 60 days.

2. REQUEST the LAFD, EAD, City Planning Department (and any other fiscally impacted City department) to report on the resources and funding that it will need to comply with the intent of Motion (Cardenas - Padilla - et al.).

Respectfully submitted,

PLANNING AND LAND USE MANAGEMENT COMMITTEE

Tony Cardenas
