Impact Information

Date: 11/07/2007
Update to a Previous Input: No
Directed To: City Council and Committees
Reference Number: CFI 07-2991
Agenda Date: 11/07/2207
Item Number: 17

Brief Summary: The Greater Cypress Park NC opposes the proposed code amendment CFI 07-2991. We feel that to eliminate or greatly reduce parking spaces for multi family dwellings will place more stress on already overcrowded street parking and ties no incentive for developers to reinvest their new profit for the public good. Since California law currently exist that allows for reduced parking when providing affordable housing, we feel the City should focus their efforts to expand and improve our public transportation system and encourage more mixed use development.
