

MOTION

On January 18, 2008 the City Council approved a mixed-use project located at 695 Santa Fe Avenue in the Central City North Community Plan area (CF 07-4099 & 07-4099-S1). The City Clerk released the Council determination letters on January 29, 2008 and February 18, 2008.

Subsequently it has been determined that both of the determination letters contained inaccuracies regarding the project description in the grant clauses, the Conditions of Approval and the findings of fact. As such, the record is unclear and inconsistent and should be corrected prior to any execution of the entitlements.

I THEREFORE MOVE that the City Council instruct the Department of City Planning to prepare a draft action to correct the determinations to reflect the correct project description in the grant clauses, Conditions of Approval and findings.
