

A PETITION TO THE LOS ANGELES CITY COUNCIL AND OFFICE OF THE LOS ANGELES CITY ATTORNEY

We, the undersigned, are legally qualified medical cannabis patients under California State law and rely on 'storefront' medical cannabis collectives in Los Angeles for consistent and affordable access. The storefront collective model is the most convenient and effective for patients as the vast majority of us do not have the skills or resources to grow medical cannabis ourselves. We demand that the PLUM Committee work with experienced patient advocates in drafting regulations for storefront dispensaries as described in 'Guidelines For The Security And Non-Diversion Of Marijuana Crown For Medical Purposes' by our State Attorney General. Our collectives must protect our privacy and have convenient operating hours. Effective, reasonable and enforceable regulations will benefit communities, generate much needed revenue and prevent patients from being forced to the streets for our medicine. You must follow through with the Council's original motion introduced September 22, 2006, to regulate the City's *dispensaries*; regulating cultivation sites must be handled in a separate motion and with a separate ordinance. No more extensions, no more excuses. We must regulate our medical cannabis dispensaries now.
