Comments to PLUM Agenda No. 2 CFI 09-0035 Atwater Village Community Parking Credit Program

The City is not chartered to engage in financial activities such as a Credits Market. This is similar to a commodities market that is regulated by Federal agencies and should require registration and oversight by the proper Federal government agencies.

Air quality and the decision by the EPA to deny portions of the South Coast Air Quality 2007 Plan should be taken into consideration as per Docket No. EPA-R09-OAR-2009-0366-0001.

You have responsibilities to the General Plan and to the public.

Deny this Report and Environmental Documents.
