Community Impact Statement: None submitted.

**SUMMARY**

In a report dated December 11, 2008, the Board approved the speed limit revision for White Oak Avenue between Roscoe Boulevard and Ventura Boulevard. At a regular meeting held on January 14, 2009, the Transportation Committee considered the matter. Representatives from the Los Angeles Department of Transportation (LADOT) gave the Committee a presentation and an opportunity for public comment was provided.

The LADOT stated that this matter was initiated by a speed study that was requested by the Los Angeles Police Department to determine the appropriate speed limit and to permit radar enforcement. The department noted that an engineering and traffic survey was completed as required by Vehicle Code Section 40802(b) and done in order to justify enforcement of the speed limit by radar. The LADOT reported that the survey indicated that the revised speed limits are consistent with traffic conditions and driveway characteristics and will facilitate the safe and orderly movement of traffic. After a discussion, the Committee moved to approve the recommendations contained in the Board report dated December 11, 2008. This matter is now forwarded to the Council for its consideration.

Respectfully submitted,  
TRANSPORTATION COMMITTEE
