Councilmember Reyes,

We urge you to support the appeal by Edwardson, Parisi & Ortiz and deny the zone change and subdivision for 2400 Allesandro, in the Semi Tropic Spiritualists' Tract (near the 5 & 2 freeway intersection).

I am appalled that we are so close to destruction of a little park just at a time when L.A. needs more trees to breath and socialize.

Why the rush to cut down trees, we don't have enough, why can't the Developer find a better piece of land to work?

This land is too sloping and in danger of MUD SLIDES!
Surely this must be apparent from the environmental studies?

If not, then more studies need to be done, please, please don't do this project, we need our urban GREEN spots

sincerely,

Irene Ujda
