RE: CF 090206 Valet Ordinance- Support

Honorable Councilmembers:

I support the valet service ordinance because of the lawlessness I observe in this Miracle Mile North neighborhood. Valets speed down our poorly paved, unlit and unsafe alleys during all hours of restaurant operation. As a pedestrian, on more than one occasion, I have had near misses with valets who do not stop at the mouth of alleyways where they exit to sidewalks.

Valets remove our garbage cans which have been set out for pick up, so they can use the curb space for parking. As a result, residents' garbage has not been picked up on more than one occasion. Neighbors have come to near blows with valets when valets block our driveways.

You need to not only enact this ordinance with all due haste, but enforce it as well. Thank you.

Sincerely,

(Original signed)

RE: CF 090206 Valet Ordinance- Support

Honorable Councilmembers,

I support this ordinance because we have battled for over ten years with the crowded street situation and dangerous valet behavior at what was the Celsdon and prior to that, the Libra Restaurant where we have seen valet parkers do U turns in the street near the intersection of Fairfax and Third and park cars on the side streets illegally.

This service needs to be regulated to insure proper insurance coverage from vendors and the diligence of the valets themselves to make sure they are properly licensed and trained to protect the public. There are many pedestrians who come out of the neighborhoods behind the South side of Third street that have to dodge valet parking personnel and take their lives in their hands when they try to walk down Third Avenue or cross at various crosswalks near the restaurant.

This measure is long overdue.

Sincerely,

Daniel M Curtis
