

Who Shares Your Property Tax Dollar

Where The City Gets Its Dollars

#35

RECEIVED

NOV 25 2009

REPORT FROM

YOUR

LOS ANGELES

CITY GOVERNMENT

1947-48

This brief report, in chart form, is presented to the citizens of Los Angeles to show the sources and uses of city funds.

Only approximately 3% of all taxes paid by you go to the City, the remainder to the County, Schools, Special Districts, State and Federal governments. Approximately 70% of all taxes you pay go to Washington.

Special Districts include the Flood Control District, administered by the County Board of Supervisors, and the Metropolitan Water District, administered by a board comprising representatives of the southern California cities which constitute the District.
