Re: City Council Meeting, May 11, 2016 (10 a.m.)

OBJECTION: PUBLIC COMMENT

Currently, the Los Angeles City Council does not have an active role in the Los Angeles Unified School District. The Los Angeles Unified School District is the second largest school district in the United States, and it is important that the Los Angeles City Council take an active role in the operation of the Los Angeles Unified School District, and its teacher retirement fund -- CalStrs (California State Teacher's Retirement System).

The City of Los Angeles should take an active role in the Los Angeles Unified School District, due to racketeering and embezzlement of teacher retirement funds, and the embezzlement of teacher and substitute teacher's salaries.

There is proof that CALSTRS (California State Teacher's Retirement System), and the Los Angeles Unified School District is embezzling teacher salaries and retirement funds.

It is recommended that the Los Angeles City Council start a committee to discuss the active role the Los Angeles City Council can take with LAUSD, which includes the past and current embezzlement of teacher salaries and retirement funds.
