Subject: Vote to Amend AGF Ordinance CF09-2645/AGF, LAMC Sec. 63.03.2  
To: june.lagmay@lacity.org

Greetings,

I just signed the following petition addressed to: Los Angeles City Council.

-----  
Vote to Amend AGF Ordinance, LAMC Sec. 63.03.2

Without amendments to the AGF ordinance CF09-2645 ( on the agenda @ the Los Angeles City Council meeting on 9/11/2012 )we may not be able to stop AT&T from putting a 45 foot tower cell phone tower on one of our most beautiful bluffs at 302 Mt. Holyoke( Application number: 5-12-146.)

Sept. 7, 2012.

Re: Council File No. 09-2645/Proposed Amendments to "Above Ground

Dear Honorable Councilmembers,  
Please vote to amend the AGF ordinance so that we can stop AT&T from putting a cell phone tower on one of our most beautiful bluffs.

AT&T has applied to the California Coastal Commission to put a 45 foot tower at 302 Mt. Holyoke( Application number:5-12-146.) Please vote to amend the regulations so that we can keep the cell tower out of the park where many of our children play and all of us enjoy a spectacular view of the Pacific Ocean

Placing an industrial commercial wireless telecommunications facility at: 302 Mount Holyoke Ave., Pacific Palisades is completely incompatible with the use and purpose of the family homes in our R1 zoned neighborhood. Further, this cell tower is right beside a park where children play. It would create an aesthetic blight since it would be located next to Palisades Park (a public park) and in a coastal zone. It would be detrimental to the health of our families, the value of our property, the reputation of our local public schools, and the character of our neighborhoods.

Please vote to provide regulation for the following:

Elimination of the utility pole exemption (BIG!)

Expansion of the notice provisions (to be determined, but currently limited to "adjoining/abutting/across the street" property owners/occupants)

Enhancement of the aesthetic provisions (to be determined, but certainly any enhancement would be an improvement since there are virtually no such provisions related to towers in the current ordinance)

Imposition of permit duration limits (again to be determined; currently there are none)

Expansion of the right of appeal to "all aggrieved persons" (i.e., consistent with appeal rights under L.A. Zoning Code for CUPs/private property installations; currently, appeal of AGF permits in the PROW is only afforded to the limited number of owners/occupants who received notice -- a highly restrictive provision which stands alone among California cities).

Requirement for the applicant to map all existing wireless facilities and to project anticipated future needs in the area or community served by the proposed facility.

Provision for public comment and/or a hearing prior to permit issuance, for all proposed installations in residential zones (currently no such hearings are provided for),

Requirement for the applicant to provide an RF emissions analysis and/or a certification of compliance with FCC requirements (again, no such provision in current ordinance),

Requirement for the applicant to map all existing wireless facilities and to project anticipated future needs in the community served by the proposed facility (same).

Provide a temporary moratorium on PROW installations (not on

private property installations) while the Ordinance is being drafted Requirement for the applicant to bear the expense of an independent expert to assist the City, as

needed, with analysis of technical issues such as coverage gap claims, RF emissions and alternative location feasibility.

Sincerely,

david tengbom  
113, California

Please vote to amend the regulations so that we can keep the cell tower out of the park where many of our children play and all of us enjoy a spectacular view of the Pacific Ocean

Placing an industrial commercial wireless telecommunications facility at: 302 Mount Holyoke Ave., Pacific Palisades is completely incompatible with the use and purpose of the family homes in our R1 zoned neighborhood. Further, this cell tower is right beside a park where children play. It would create an aesthetic blight since it would be located next to Palisades Park (a public park) and in a coastal zone. It would be detrimental to the health of our families, the value of our property, the reputation of our local public schools, and the character of our neighborhoods.

Please vote to provide regulation for the following:

Elimination of the utility pole exemption (BIG!)

Expansion of the notice provisions (to be determined, but currently limited to "adjoining/abutting/across the street" property owners/occupants)

Enhancement of the aesthetic provisions (to be determined, but certainly any enhancement would be an improvement since there are virtually no such provisions related to towers in the current ordinance!)

Imposition of permit duration limits (again to be determined; currently there are none)

Expansion of the right of appeal to "all aggrieved persons" (i.e., consistent with appeal rights under L.A. Zoning Code for CUPs/private property installations; currently, appeal of AGF permits in the PROW is only afforded to the limited number of owners/occupants who received notice -- a highly restrictive provision which stands alone among California cities).

Requirement for the applicant to map all existing wireless facilities and to project anticipated future needs in the area or community served by the proposed facility.

Provision for public comment and/or a hearing prior to permit issuance, for all proposed installations in residential zones (currently no such hearings are provided for),

Requirement for the applicant to provide an RF emissions analysis and/or a certification of compliance with FCC requirements (again, no such provision in current ordinance),

Requirement for the applicant to map all existing wireless facilities and to project anticipated future needs in the community served by the proposed facility (same).

Provide a temporary moratorium on PROW installations (not on private property installations) while the Ordinance is being drafted

Requirement for the applicant to bear the expense of an independent expert to assist the City, as needed, with analysis of technical issues such as coverage gap claims, RF emissions and alternative location feasibility.

Sincerely,

Concern re sensitive patients

Dr. Jim Blechman, MD  
Santa Monica, California

Dear Honorable Councilmembers,

Please vote to amend the AGF ordinance so that we can stop AT&T from putting a cell phone tower on one of our most beautiful bluffs.

AT&T has applied to the California Coastal Commission to put a 45 foot tower at 302 Mt. Holyoke( Application number:5-12-146.) Please vote to amend the regulations so that we can keep the cell tower out of the park where many of our children play and all of us enjoy a spectacular view of the Pacific Ocean

Please vote to provide regulation for the following:

Elimination of the utility pole exemption

Expansion of the notice provisions

Enhancement of the aesthetic provisions

Imposition of permit duration limits

Expansion of the right of appeal to "all aggrieved persons" (i.e., consistent with appeal rights under L.A. Zoning Code for CUPs/private property installations; currently, appeal of AGF permits in the PROW is only afforded to the limited number of owners/occupants who received notice -- a highly restrictive provision which stands alone among California cities).

Requirement for the applicant to map all existing wireless facilities and to project anticipated future needs in the area or community served by the proposed facility.

Provision for public comment and/or a hearing prior to permit issuance, for all proposed installations in residential zones

Requirement for the applicant to provide an RF emissions analysis and/or a certification of compliance with FCC requirements

Requirement for the applicant to map all existing wireless facilities and to project anticipated future needs in the community served by the proposed facility (same).

Provide a temporary moratorium on PROW installations while the Ordinance is being drafted

Requirement for the applicant to bear the expense of an independent expert to assist the City, as needed, with analysis of technical issues such as coverage gap claims, RF emissions and alternative location feasibility.

Sincerely,

My Children!

Lindsay Junger  
Pacific Palisades, California

Provision for public comment and/or a hearing prior to permit issuance, for all proposed installations in residential zones

Requirement for the applicant to provide an RF emissions analysis and/or a certification of compliance with FCC requirements

Requirement for the applicant to map all existing wireless facilities and to project anticipated future needs in the community served by the proposed facility (same).

Provide a temporary moratorium on PROW installations while the Ordinance is being drafted

Requirement for the applicant to bear the expense of an independent expert to assist the City, as needed, with analysis of technical issues such as coverage gap claims, RF emissions and alternative location feasibility.

Sincerely,

We're human both old and young and don't deserve, unnecessary, avoidable and painful, early on set of death, nor to the environment that supports us.

**Subject:** Vote to Amend AGF Ordinance CF09-2645/AGF, LAMC Sec. 63.03.2

Greetings,

I just signed the following petition addressed to: Los Angeles City Council.

-----  
Vote to Amend AGF Ordinance, LAMC Sec. 63.03.2

Without amendments to the AGF ordinance CF09-2645 ( on the agenda @ the Los Angeles City Council meeting on 9/11/2012 )we may not be able to stop AT&T from putting a 45 foot tower cell phone tower on one of our most beautiful bluffs at 302 Mt. Holyoke( Application number: 5-12-146.)

Sept. 7, 2012.

Hon. Herb J. Wesson, Jr., President Hon. Eric Garcetti  
Hon. Ed P. Reyes, President Pro Tempore Hon. Jose Huizar

Los Angeles, CA 90012

Re: Council File No. 09-2645/Proposed Amendments to "Above Ground

Dear Honorable Councilmembers,

Please vote to amend the AGF ordinance so that we can stop AT&T from putting a cell phone tower on one of our most beautiful bluffs.

AT&T has applied to the California Coastal Commission to put a 45 foot tower at 302 Mt. Holyoke( Application number:5-12-146.) Please vote to amend the regulations so that we can keep the cell tower out of the park where many of our children play and all of us enjoy a spectacular view of the Pacific Ocean

Please vote to provide regulation for the following:

Elimination of the utility pole exemption

Expansion of the notice provisions

Enhancement of the aesthetic provisions

Imposition of permit duration limits

Expansion of the right of appeal to "all aggrieved persons" (i.e., consistent with appeal rights under L.A. Zoning Code for CUPs/private property installations; currently, appeal of AGF permits in the PROW is only afforded to the limited number of owners/occupants who received notice – a highly restrictive provision which stands alone among California cities).

Requirement for the applicant to map all existing wireless facilities and to project anticipated future needs in the area or community served by the proposed facility.

Provision for public comment and/or a hearing prior to permit issuance, for all proposed installations in residential zones

Requirement for the applicant to provide an RF emissions analysis and/or a certification of compliance with FCC requirements

Requirement for the applicant to map all existing wireless facilities and to project anticipated future needs in the community served by the proposed facility (same).

Provide a temporary moratorium on PROW installations while the Ordinance is being drafted

Requirement for the applicant to bear the expense of an independent expert to assist the City, as needed, with analysis of technical issues such as coverage gap claims, RF emissions and alternative location feasibility.

Sincerely,

Jana Russell  
Pacific Palisades, California
