

MOTION

I MOVE that the private operation of the publicly owned parking lots restrict any company, corporation, partnership, or individual who has outstanding balances in past due taxes and or fees. This restriction shall also apply to newly formed companies, corporations, partnerships, and individuals with partners who have reorganized from, or are created with, individuals, partners, or entities who come from a company that has, or continues to have, any outstanding balance of past due taxes and fees.

I FURTHER MOVE that any operator of a publicly owned parking lot show long term financial stability and capacity to maintain their operational obligation under this new partnership.
