Dear Mr. White:

We are citizens and residents of Los Angeles in the Mt. Washington neighborhood, and have lived in Los Angeles for 20 years and 30 years, respectively.

We are pleased to SUPPORT the measure to allow a small increase in number of companion animal cats and dogs per household - the total recommended being 5 cats and 5 dogs. We encourage the entire City Council and officers to support the measure also.

This measure will benefit the city, animals, and citizenry alike. The city will see an increase in dog licensing revenue. The shelters will see a decrease in their now sadly overwhelming numbers. Households will enjoy the benefits of animal companionship. The animals will, of course, really enjoy having homes.

Other municipalities in California have higher pet limits - or no limits - and have experienced no adverse effects.

Thank you for adding our comments to the record.
