Yes, I am referring to Council File # 10-1686.

I understand that AB 46 is a proposed State bill, and LA City is right to consider what may happen, but we are asking that the Council not 'promote' disincorporation. Whether it be an economic bonus to LA City or an effort to end alleged corruption, disincorporation causes unintended injury to 1800 businesses and 104,000 employees of Vernon. If you investigate, you will see that the Vernon Chamber has made rapid progress in developing a solution.

Since the corruption is only damaging the residents and businesses of Vernon, please give us a chance to correct this problem.

Subject: Re: STOP!! Vernon business is not the criminal!

Hello Sir,

Is this email in response to Council File # 10-1686?

Regards,

Michael

Dear Councilmembers,

As a business owner with interests in the City of Vernon, I urge you not to support AB 46. More than anyone else, the bill will hurt business and jobs in Vernon. The businesses of Vernon, organized by the Vernon Chamber of Commerce, are making rapid moves to change the political organization of the city without disincorporation. Remember, we are the victims. In your haste to punish the perpetrators, don't do us further harm.
