In order to meet the diversion goals of AB 939 and the City of Los Angeles which is Zero Waste by 2025, solid waste haulers, contractors and recyclers shall register with the City to obtain a permit. As used in this Section and in Sections 66.32.1 through 66.32.5, the following terms shall have the meanings set forth below:

1. **AB 939** shall mean the State of California's Integrated Waste Management Act of 1989, as may be amended from time to time, and as set forth in California Public Resources Code Sections 40050, *et seq.*, and implementing regulations of the Department of Resources Recycling and Recovery (CalRecycle).

6. **Permittee** shall mean a person issued an AB 939 Compliance Permit pursuant to the provisions of Subsection (a) of Section 66.32.1.

Sec. 31. Section 66.33 is added to the Los Angeles Municipal Code to read as follows:

SEC. 66.33. PURPOSE .

Under the City's RENEW LA Plan, the City committed reaching Zero Waste by diverting 70% of the solid waste generated in the City by 2013, diverting 90% by 2025, and becoming a zero waste city by 2030. State law currently requires at least 50% solid waste diversion and establishes a state-wide goal of 75% diversion by 2020. Moreover, state law requires mandatory commercial recycling in all businesses and multifamily complexes and imposes additional reporting requirements on local agencies, including the City. In order to meet these requirements and goals, increasing recycling and diversion in the commercial and multifamily waste sectors is imperative. The commercial and multifamily sectors produce most of the City's solid waste. Currently, a significant amount of commercial and multifamily solid waste generated in the City, including recyclables and organics, is going to landfills, resulting in unnecessary greenhouse gas emissions. The City has a responsibility under state law to ensure effective and efficient waste and recycling service for its businesses and residents. It will most successfully fulfill that responsibility, and also meet its own Zero Waste policy goals, by ensuring that its solid waste, including recyclables and organics, are collected, transported and processed in a manner that reduces environmental and social impacts on the City and the region.

An exclusive, competitive franchise system for the collection, transportation and processing of commercial and multifamily solid waste will aid the City in meeting its diversion goals by, among other things: (i) requiring franchisees to meet diversion targets; (ii) increasing the capacity for partnership between the City and solid waste haulers; (iii) allowing the City to establish consistent methods for diversion of recyclables and organics; (iv) increasing the City's ability to track diversion, which will enable required reporting and monitoring of state mandated commercial and multifamily recycling; (v) increasing the City's ability to ensure diversion quality in the processing facilities handling its waste and recyclables; and (vi) increasing the City's capacity to enforce compliance with federal, state, county, and local standards.

An exclusive, competitive franchise system will also have other beneficial effects, including reducing adverse environmental impacts such as unnecessary solid waste truck traffic, emissions and street impacts, protecting ratepayers, ensuring high customer service standards, and increasing solid waste hauler accountability.

While the move to an exclusive franchise system will generate many benefits for the City and its residents, it will also increase the risk that a labor dispute will interfere with collection services. To protect the City's interest in efficient and uninterrupted collection services, the City will require franchisees to produce evidence that they are parties to written, enforceable agreements that prohibit labor organizations and their members from engaging in picketing, work stoppages, boycotts or other economic interference with collection services.

SEC. 66.33.1. DEFINITIONS.

As used herein and in Sections 66.33 to 66.33.17, the following terms shall have the meanings set forth below:

7. **On-location Filming Waste** shall mean solid waste generated and collected at a commercial film production permitted pursuant to Section 12.22 A.13. of this Code or Section 22.350 of the Los Angeles Administrative Code.

8. **Studio** shall mean one or more adjacent parcels of real property occupied by a motion picture or television production and distribution enterprise and containing sound stages totaling no less than 50,000 square feet in area and 18 feet in height designed for motion picture or television production and utilized by that enterprise specifically for such purpose.

SEC. 66.33.4. FRANCHISE ZONES.

The Bureau shall divide the territory within the City into eleven (11) franchise zones, the designation of which shall be subject to the approval of the Board and City Council.
