Honorable Mitch O'Farrell, Member

Energy & Environment Committee

My name is Jay Gandara and I am the owner JI Gandara Transport Inc , a minority owned firm . I have been in business as a trucking company for over 20 years and employ 40 people. I currently provide waste transportation services for both Athens Services and Waste Management and I am looking forward to continue to grow my business when this franchise comes into effect . I consider myself a success story because of the City's MBE program that open the door to work with these successful companies. I appreciate the opportunities that both companies have given me over the years

I respectfully request that you approve the recommendation before you today.

Sincerely,

*Jay Gandara
President*
