Dear Sirs:

You responding to notice of proposed increases in the city's sewer service charge (SSC) sent to me by the Sanitation Department via the November 2011 form 11/11.

In my opinion the CA DWP and its various department ^{chiefs} have put a strangle hold on the home owner, and I foresee harder times ahead for the home owner or renter if this upper spiral of utilities cost is not halted or reversed.

Your 11/11 bulletin page 3 figure 1: (cites) 2011 Typical monthly ----- local cities and states 9 CA cities in order of monetary charge. Los Angeles is listed at \$ 29.88 or at the bottom 3rd.

Re: Proposed Sewer Service Charge

Dear Sir/Madam:

I am writing to oppose the increase in the Sewer Service Charge. These rate increases are in addition to the constant rate increases I have received in the past few years nearly on an on-going basis. These increases in rates will almost double my bill. Please do not increase the sewer service charge.

Sincerely,

Monique Jackson

RE: Proposed Sewer Service Charge 3977 So. Budlong Ave. LA. 90037
APN 5039-002-001

Dear Councilmembers:

This is my urgent appeal to you to please do not allow another increase in the Sewer Service Charges or I will have to live without electricity at my home which is facing foreclosure if no loan modification.

When new technologies are used by the DWP which should make the cost of water and power decrease, instead we, the customers get an increase in costs.

I cannot afford to buy food and have to use food banks because by the time I pay my utilities and house note there is nothing left for anything else. If I lived in an apartment my rent would be more than I could pay and I am trying desperately to meet my day-to-day living expenses. Because I own my home I cannot qualify for HEAP so please do not cause me to live in the dark and without water please.

Respectfully yours,

Marion Williams

PROTEST

10-1947

re: Proposed increases in Sewer Service Charge

To Whom It May Concern:

I am writing to voice my opposition to the increases in the SSC Rates as proposed. I find the rate increases at 4.5% to 6.5% to be excessive compared to other annual cost increases. This is especially true in light of the recent economic distress that many Los Angeles residents find themselves.

Most of us have not had cost of living increases in the last three years. In fact, many of us have had to take pay cuts just to keep the jobs we do have.

While there are signs that the economy is improving, this has yet to flow to the workers.

The 2010 consumer price index was 1.5% and the 2009 CPI was 2.7%. The consumer price index for 2011 was at 3%. Therefore, it would seem that something in the 2.7% to 3.2% would be more reasonable. I can not understand the need for the City to propose increases in the range of 6.5%. This is more than the consumer can absorb.

Regards,

Dawn Hollingsworth

January 21, 2012

Dear City Council,

The proposed raise in LADWP sewer service charge is very exorbitant for those of us on fixed income. You are raising prices faster than we will ever have raises in our income to pay for this.

You are living way beyond our means. Ten years of raises every year, when did we as citizens, ever receive this kind of increase in wages or retirement. Never. You are in some kind of mind set that what ever you want, the people can afford. These days, your very wrong. There will be many other increases in the next 10 years. Gasoline, Food, Housing, other utilities besides just DWP. Everybody with the ability to charge for something will be raising prices as the value of our money shrinks every time the government goes to print more money.

Have Mercy for God's sake on us with fixed income. Why should anyone work hard all their life only to be squeezed out in the end. Many families now rely on retired parents to help them through. What's going to happen when you crush the retired parents too.

Can you at least have some kind of exemption or lesser fees for those who are retired?
