RE: Resolution 11-0002-S123 (Corporate Activities in Electoral Processes)

Dear Councilmember LaBonge:

As you know, a very important vote will be taken by the L.A. City Council on December 6<sup>th</sup>!

As a senior resident of District 4 I'm writing to urge you to support the Los Angeles City Council Resolution 11-0002-S123, on Corporate Activities in Electoral Processes calling for a Constitutional Amendment and other legislative actions to establish that only living human beings, not corporations, are endowed with Constitutional rights and that money is not the same as free speech.

The pernicious doctrine of "corporate personhood" has meant that the rights originally meant to protect American citizens from the potentially oppressive powers of our government now belong as well to the corporation, an artificial entity.

Corporations claim these constitutional rights in Federal court to overturn, weaken, or get around laws designed to protect the environment, worker safety, public health and a myriad of other laws including campaign finance laws, of which the Supreme Court decision in "Citizen's United v. FEC" is the most recent and egregious example.

In a democracy, the authority of the government is derived from its citizens. The citizens rule. If we wish to limit corporate campaign contributions or pass other laws that protect our communities, it is our right to do so.

A recent poll by ABC News/ Washington Post reveals that over 80% of the American public already oppose the idea of "corporate personhood" and that this opposition cuts across the political spectrum.

I urge you and the City of Los Angeles to lead the charge on **December 6** for democratic rights and I ask for your "**Aye**" vote to this vitally important resolution.

Sincerely,

Arthur Vogelsang  
1730 N. Vista St  
Los Angeles, CA 90046

As you know, a very important vote will be taken by the L.A. City Council on December 6<sup>th</sup>!

As a senior resident of District 4 I'm writing to urge you to support the Los Angeles City Council Resolution 11-0002-S123, on Corporate Activities in Electoral Processes calling for a Constitutional Amendment and other legislative actions to establish that only living human beings, not corporations, are endowed with Constitutional rights and that money is not the same as free speech.

The pernicious doctrine of "corporate personhood" has meant that the rights originally meant to protect American citizens from the potentially oppressive powers of our government now belong as well to the corporation, an artificial entity.

Corporations claim these constitutional rights in Federal court to overturn, weaken, or get around laws designed to protect the environment, worker safety, public health and a myriad of other laws including campaign finance laws, of which the Supreme Court decision in "Citizen's United v. FEC" is the most recent and egregious example.

In a democracy, the authority of the government is derived from its citizens. The citizens rule. If we wish to limit corporate campaign contributions or pass other laws that protect our communities, it is our right to do so.

A recent poll by ABC News/ Washington Post reveals that over 80% of the American public already oppose the idea of "corporate personhood" and that this opposition cuts across the political spectrum.

I urge you and the City of Los Angeles to lead the charge on **December 6** for democratic rights and I ask for your "**Aye**" vote to this vitally important resolution.

Sincerely,

*Paul M. Fleiss, MD*
