REPORT OF THE CHIEF LEGISLATIVE ANALYST

DATE: April 23, 2012 WAS# 12-04-0348

TO: Members of the Rules, Elections, and Intergovernmental Relations Committee

FROM: Gerry F. Miller
Chief Legislative Analyst

REDISTRICTING PLAN FOR THE LOS ANGELES UNIFIED SCHOOL DISTRICT

SUMMARY

The Los Angeles Unified School District Redistricting Commission (Commission) has submitted a proposed plan pursuant to City Charter requirements recommending revisions to the boundaries of the districts of the Los Angeles Unified School District (LAUSD). As instructed by your Committee, this office, in consultation with the City Attorney, has reviewed the plan submitted for consideration. This report provides a summary review of the Commission's proposed plan, including District-level population data.

In addition, the Rules, Elections, and Intergovernmental Relations Committee (Committee) requested that Council and Board members submit to the Chief Legislative Analyst (CLA) any adjustments to the Commission's proposed boundaries to allow for analysis and presentation to the Committee. The CLA has received and reviewed five proposed adjustments. Of these, one is a technical change where the Board Members of the Districts affected by the adjustment have endorsed the change (Recommendation 3). The remaining four items require consideration by this Committee.

After reviewing the Commission Plan and hearing record, the City Attorney identified potential concerns about the configuration of Board Districts 2 and 5. To address these concerns, an adjusted plan was developed which returns the District 5 north/south connection to the eastern border of the LAUSD and makes other changes in the northern areas of Districts 2 and 5.

Also before your Committee is an alternate LAUSD plan submitted by Council District 8. This proposed map is the same map submitted in connection with the Commission's minority report as discussed further in the Findings Section. While it increases the total population variance among the districts, individual variances are within acceptable boundaries. However, some concern over the proposed District 7 boundaries has been expressed. Should the Committee wish to proceed with this map, we would recommend instructing our office and the City Attorney to report back with alternatives that resolve any concerns.

As is explained below, the technical change proposed for Districts 3 and 4 and the Marshall High School adjustment can be done independently. However, the proposed adjustment for the 32nd Street and Ted Alexander schools would require other changes in the boundaries between

Districts 2 and 5. The "Realignment of Districts 2 and 5" proposal, submitted by Council District 10, would resolve City Attorney concerns relative to the proposed configuration of Districts 2 and 5, and incorporates both the Marshall High School and the 32nd Street and Ted Alexander School adjustments. Accordingly, we believe there are two options for the Committee, as reflected in the Recommendations of this report: *either* approve the District 3 and 4 Technical Adjustment and the Realignment of Districts 2 and 5, *or* approve the District 3 and 4 Technical Adjustment and the Minority Report map Av2 as submitted by Council District 10, with an instruction to this office and the City Attorney to report back with further adjustments to District 7 as needed.

RECOMMENDATIONS
That the City Council:

1. Ratify the data fields used by the Los Angeles Unified School District Redistricting Commission (Commission) in drawing its plan (Appendix A);

2. Note and File the transcripts and public input provided by the Commission;

3. Adopt the agreed-upon adjustment as noted in this report and detailed in Appendix B that would reinstate the currently existing north/south boundaries between Board Districts 3 and 4;

4. Adopt one of the following alternatives:

   a. Realignment of Districts 2 and 5, including adjustments for Marshall High School and the 32nd Street and Ted Alexander Schools

   or

   b. Alternate LAUSD Plan (Map Av2), and instruct the Chief Legislative Analyst and the City Attorney to report back on alternatives to resolve concerns relative to the proposed District 7 boundaries.

5. Instruct the Bureau of Engineering to prepare the meets and bounds for the adjusted map and submit them to the City Attorney to support the necessary ordinance by May 25, 2012; and

6. Request the City Attorney to prepare and transmit the necessary ordinance no later than June 8, 2012.

FISCAL IMPACT
No General Funds are required to implement these actions.

BACKGROUND
Charter Reform in 1999 established that the LAUSD districts be reviewed and revised at least every ten years by an independent commission upon the release of decennial census data. The

Commission is required to prepare and present LAUSD district boundaries that conform with state and federal law and, where possible, keep neighborhoods and communities intact, use natural boundaries and streets, respect high school attendance areas, and be geographically compact.

With the release of the 2010 decennial census data in 2011, the City Council initiated the current redistricting process in compliance with the Charter. The 2011-2012 Commission held its first meeting on October 7, 2011, initiating a process that involved hiring staff, establishing a Commission office, holding public hearings, and preparing a proposed redistricting plan for the LAUSD.

As required by the City Administrative Code, the Commission submitted a final proposal by March 1, 2012 for Council consideration. It should be noted that the Council is not required to adopt the Commission's proposal. The Council may make adjustments and amendments, or adopt an entirely different plan. The Charter does require that the Council adopt a final plan by ordinance no later than June 30, 2012.

The redistricting ordinance will contain a detailed meets-and-bounds description of the final LAUSD Board District boundaries. Preparation of this document is a technical process that must be completed by the Bureau of Engineering to ensure that the boundaries as adopted are accurate for use in drawing voter precincts and other relevant program boundaries. Council must adopt a final map in a timely manner to ensure that the redistricting ordinance can be prepared, considered, and approved before the June 30, 2012 deadline.

Required Population Adjustments

The primary consideration in redistricting is the U.S. Constitutional requirement for the principle of one-person, one-vote. To apply that principle to LAUSD redistricting, it is necessary to determine the ideal size of a Board District. The U.S. Census Bureau reports that the area covered by the LAUSD has a population of 4,541,134. The City Charter requires the creation of 7 LAUSD districts. Thus, the ideal population for each district is 648,733.

The following table provides population figures for LAUSD Board Districts in their current configuration, as well as the percent deviation from an ideal population of 648,733 people. Based on the 2010 Census data, changes to the LAUSD Board District boundaries are necessary to create a population balance between the districts.

Population of Existing Board Districts		
District	**Population**	**% Deviation**
1	646,591	-0.3%
2	615,000	-5.2%
3	706,563	8.9%
4	672,189	3.6%
5	617,916	-4.8%
6	628,704	-3.1%
7	656,372	1.2%

THE COMMISSION PLAN

The plan submitted by the Commission was based upon analysis of socio-demographic data, neighborhood, community, high school attendance area geographic information, public testimony (both verbal and written), and public debate among the Commissioners. The Commission received and reviewed plan proposals from the public and public interest groups. The transcripts of the hearings and meetings, written testimony, and proposed district plans provide a record of the concerns and ideas of those living in LAUSD boundaries with regard to individual Board District boundaries. The Commission has submitted the transcripts, written comments, and proposed plans to the City Council as part of its report, to support its final record of the recommended plan's adoption.

To support its work effort, the Commission used a data set that contained a wide range of information for use in the redistricting process (Appendix A). Data was compiled from the U.S. Census Bureau, the Los Angeles Unified School District, the Los Angeles County Registrar-Recorder, the Los Angeles Metropolitan Transit Authority, and many other City service departments, agencies, and districts. Base layers included census blocks and census tracts, and additional layers included existing district lines, high school attendance areas, and transportation corridors and areas.

Public Outreach and Participation

The Commission held eleven meetings dedicated to hearing public testimony regarding redistricting. It also held 13 additional business meetings to consider matters before the Commission, during which opportunity for public testimony was offered. The Commission also worked with various grassroots organizations and communications firms to provide outreach to the seven Board Districts and various communities of interest in LAUSD's boundaries.

Initial Draft Maps

The Commission held seven hearings (one in each existing Board district) to hear from the public on what factors and criteria the Commission should take into account when drawing proposed maps, and to hear from residents and stakeholders on how to maintain the integrity of defined communities of interest. The Commission also held a meeting to hear from self-identified groups and organizations on issues related to communities of interest in the LAUSD. The Commission then created three ad-hoc regional committees to generate district boundaries for Districts 3 and 6, Districts 2, 5, and 7, and Districts 1 and 4. Using the information from public testimony, those committees prepared maps which were then sent to an ad hoc reconciliation committee, which created two draft maps to present to the Commission. A third map submitted by MALDEF/NALEO was also presented to the Commission.

These maps were presented to the full Commission at a meeting on February 15th; at that meeting the Commission approved those maps for the purpose of obtaining additional public comment.

Final Map and Report Approval

After approval of the three draft maps, the Commission held three meetings to hear public comment on the prepared draft maps. Afterwards, the Commission was presented with five additional maps to reflect public testimony and Commissioner concerns. On February 23rd the Commission adopted its final recommended map by a vote of 14-1.

The Commission's report, *2012 Report and Recommendations of the City of Los Angeles Redistricting Commission for the Los Angeles Unified School District*, dated March 1st, was considered by the Commission at its meeting on February 29th. The report describes the process by which the Commission conducted its work, provides a review of the recommended plan, identifies major issues considered by the Commission, and presents detailed maps and data describing the proposed districts. The Commission voted to submit this report to the City Council for consideration by a vote of 13-1, with 1 abstention.

In addition to the main report, Commissioner Mark Lewis submitted a minority report which was signed onto by Commissioners Jimmie Woods Gray and Dermot Givens. The report expresses concern that the final map adopted by the Commission was not seen by the public or the majority of the Commissioners prior to the morning of the day it was adopted. The report also notes concerns that the proposed map fails to keep neighborhoods and communities intact, does not conform to high school attendance zones, and lacks geographic compactness in district five. Finally, the report states that some commission meetings conflicted with the Brown Act, that the commission operated under a rushed time-frame, that many commissioners failed to attend all Commission meetings, that transcripts of meetings were not uniformly provided to commissioners, that the Commission's website included an unworkable mapping program, and that the Commission's staff provided poor support to the commission.

The Minority Report recommends that the City adopt Map Av2, which is attached to the report. This map makes significant changes to the adopted map in districts 1, 2, 4, 5, and 7. Council District 8 submitted a proposal which also recommends adoption of Map Av2; Map Av2 is discussed in more detail further in this report.

District by District Review
The following information was provided by the LAUSD Redistricting Commission in its report.

The Commission adopted a plan that has a total deviation from ideal population of no more than 3.4%, with individual population variances ranging from -1.4% to 1.9%. For local governments and municipalities, some deviation from the ideal population for districts has been allowed by the courts. Recent decisions by the courts, however, have required that any action to deviate from the ideal requires explanation of that deviation. The Commission has explained that they have deviated from the ideal equal population among all districts by no more than 3.4% in order to follow traditional redistricting criteria, including compliance with the Voting Rights Act, preserving political subdivisions, recognized neighborhoods, and following existing educational architecture.

Other policy considerations in the Commission report provide additional justifications for the boundaries as drawn. The Commission's report states that it sought preserve the core of each Board District, minimize neighborhood and census place divisions between districts, and keep high-school attendance zones, school feeder patterns and families of schools whole and unified in one board district where possible.

The following provides basic population figures derived from the U.S. Census Bureau's PL-94 database for each District as reported in the Commission's report. In addition, data also

summarize general voting age population and citizen voting age population in each Board district by race.

Population of Proposed Board Districts		
District	**Population**	**% Deviation**
1	646,236	-1.2%
2	645,200	-0.5%
3	657,540	1.4%
4	651,295	0.4%
5	644,961	-0.6%
6	661,152	1.9%
7	639,750	-1.4%

District 1

As proposed by the Commission, LAUSD Board District 1 would have a population of 646,236, a -1.2% deviation from ideal. The district's proposed configuration represents a reduction in population of 5,355 from the existing district.

	% Population	% Citizen Voting Age
Latino	45%	23%
African American	34%	50%
Asian	6%	6%

District 2

As proposed by the Commission, LAUSD Board District 2 would have a population of 645,200, a -0.5% deviation from ideal. The district's proposed configuration represents an increase in population of 30,200 from the existing district.

	% Population	% Citizen Voting Age
Latino	70%	56%
African American	4%	9%
Asian	18%	19%

District 3

As proposed by the Commission, LAUSD Board District 3 would have a population of 657,540, a 1.4% deviation from ideal. The district's proposed configuration represents a decrease in population of 49,023 from the existing district.

	% Population	% Citizen Voting Age
Latino	32%	19%
African American	5%	6%
Asian	14%	12%

District 4

As proposed by the Commission, LAUSD Board District 4 would have a population of 651,295, a 0.4% deviation from ideal. The district's proposed configuration represents a decrease in population of 20,894 from the existing district.

	% Population	% Citizen Voting Age
Latino	15%	11%
African American	5%	5%
Asian	12%	9%

District 5

As proposed by the Commission, LAUSD Board District 5 would have a population of 644,961, a -0.6% deviation from ideal. The district's proposed configuration represents an increase in population of 27,045 from the existing district.

	% Population	% Citizen Voting Age
Latino	71%	56%
African American	3%	5%
Asian	10%	12%

District 6

As proposed by the Commission, LAUSD Board District 6 would have a population of 661,152, a 1.9% deviation from ideal. This is that maximum deviation allowed under the Commission's adopted plan. The district's proposed configuration represents an increase in population of 32,448 from the existing district.

	% Population	% Citizen Voting Age
Latino	69%	51%
African American	3%	6%
Asian	8%	10%

District 7

As proposed by the Commission, LAUSD Board District 7 would have a population of 639,750, a -1.4% deviation from ideal. This is the lowest deviation allowed under the Commission's adopted plan. The district's proposed configuration represents a decrease in population of 16,622 from the existing district.

	% Population	% Citizen Voting Age
Latino	61%	41%
African American	15%	23%
Asian	10%	13%

PLAN ADJUSTMENTS

At its meeting on April 6, 2012, this Committee requested that Councilmembers and Board Members submit adjustments to the Commission plan for review. Submissions were to be delivered by April 12, 2012. The Committee Chair then extended the deadline for submission of adjustments to April 16, 2012, and then finally April 19, 2012. A total of five submissions were received, of which one was jointly approved by Board Members of the affected districts.

Following submission, each was reviewed for its impact on population distribution and deviation, impacts on neighborhoods and high school attendance boundaries, and compliance with federal, state, and local redistricting requirements. Results of this analysis are provided below.

Agreed-Upon Adjustment

The Board Members of Districts 3 and 4, Tamar Galatzan and Steve Zimmer, have submitted an adjustment that would move the proposed border between Districts 3 and 4 to its current configuration.

Review of the demographic and geographic characteristics of this change indicates that it does not create any concerns with the integrity of the overall plan. It does not significantly increase the deviation from ideal equal population as proposed in this Commission's plan. Maps showing the adjustments are provided in Appendix B to this report.

Unresolved Adjustments

The following proposed changes to the Commission's plan were not agreed to mutually by all Board Members affected. The following provides analysis of population, neighborhood, and high school attendance area impacts to aid in proposal consideration. Maps showing the areas affected by these adjustments are included in Appendix C.

A. Marshall High School

Council District 4 has proposed that that the western boundary of Board District 5 be expanded to Canyon Drive, the US-101, Western Avenue, and Wilton Place, while reaching north to the City limit. This proposed change would unite the Zoo Magnet School and John Marshall High School in a single attendance area completely within Board District 5; the area under the map proposed by the Commission is split between Board Districts 2 and 4.

This adjustment would not affect the population deviation in either district. The Rules and Elections Committee heard public testimony on this subject at its hearings on April 9th and April 11th.

B. 32nd Street School and Ted Alexander School

The Redistricting Commissioner appointed by Board District 1 has proposed that the Commission's map be adjusted to move the following two schools into Board District 1:

- 32nd Street School
- Dr. Theodore T. Alexander, Jr. Science Center School (Ted Alexander School)

Those two schools are in Board District 1 in the currently existing map, while the Commission's map moves 32nd Street School into Board District 2 and Ted Alexander into Board District 5. The proposal received does not include specific adjustments to the Commission's map; any adjustment to move those two schools back into Board District 1 would also require realignment of the Commission's proposed maps for Board Districts 2 and 5.

C. Re-Alignment of Districts 2 and 5

Council District 10 has submitted a proposal that makes adjustments to the configuration of Board Districts 2 and 5, and that also makes modifications to the proposed borders of Board Districts 1, 4, and 7. The proposal (as detailed in Appendix C.3) would move the boundaries of the corridor connecting the north and south sides of Board District 5 largely back to its existing configuration along the eastern border of the LAUSD, move all of the Koreatown area, Filipinotown, Chinatown, and Little Tokyo into one Board District, and reduce the number of splits among different high school attendance zones.

This adjustment would reduce total population deviation in the Commission's map from 3.4% to 3.2%, split fewer high school attendance zones, and maintain majority-minority Board Districts in Districts 2 and 5 as was proposed in the Commission's map. Summary data for each district is provided below (detailed data is provided in Appendix C.3):

District	Population	% Deviation
1	642,348	-1.0%
2	640,164	-1.3%
3	657,111	1.3%
4	658,654	1.5%
5	640,221	-1.3%
6	661,152	1.9%
7	641,574	-1.1%

This proposal also includes the proposed Marshall High School adjustment and the proposal to move the 32nd Street and Ted Alexander Schools back into Board District 1.

D. Alternate LAUSD Plan (Map Av2)

Council District 8 has submitted an alternative LAUSD redistricting plan, and states that its proposal more accurately reflects public comment received during the Commission process. The plan submitted by Council District 8 is the same plan that is preferred in the Commission's Minority Report, Map Av2. The Commission considered this map, and voted against its adoption by a 3-12 vote. This proposal would alter the configuration of Board Districts 1, 2, 4, 5, and 7, as is detailed in Appendix C.

Total population deviation in this proposal increases from 3.4% in the Commission's plan to 4.1. Summary data for each district is provided below; detailed data is provided in Appendix C.

District	Population	% Deviation
1	645,769	-0.5%
2	644,910	-0.6%
3	658,589	1.5%
4	647,275	-0.2%
5	633,000	-2.4%
6	656,186	1.2%
7	659,417	1.7%

Los Angeles Unified School District Redistricting Commission Official Database

2011-12 Technical Documentation

The LAUSD Redistricting was done using Maptitude for Redistricting, Version 6.0 Early Release Build 905 32-bit licensed to Redistricting Partners on April 13, 2011.

Data used for the process included a statewide dataset used by Redistricting Partners for more than 35 redistricting projects and racially polarized voting studies statewide.

The City of LA provided the bulk of the dataset that was being used for the city redistricting so each commission would have access to some of the same base information. Whenever possible staff deferred to the LA City Redistricting dataset to inform decisions and provide calculations.

April 20, 2012

Gerry Miller,
Chief Legislative Analyst
200 N. Spring Street, room 255
Los Angeles, CA 90012

Dear Mr. Miller,

Please accept this proposal to adjust the district boundaries between Board District 4 and Board District 3. (See attached map.)

We propose to reinstate the North-South boundaries between Board Districts 3 and 4 so that they remain the same as the existing boundaries. The populations are equivalent.

Thank you,

Tamar Galatzan, LAUSD Board Member, District 3

Steve Zimmer, LAUSD Board Member, District 4

UNRESOLVED ADJUSTMENTS

C.1 - *Marshall High School*

CITY COUNCIL OF THE CITY OF LOS ANGELES

TOM LABONGE
COUNCILMEMBER 4TH DISTRICT

ROOM 480, CITY HALL
LOS ANGELES, CA 90012
(213) 485-3337
FAX (213) 624-7810

April 13, 2012

Gerry Miller
Chief Legislative Analyst
City Hall, Room 255

Dear Mr. Miller

Per the direction of the Chair of the Rules & Elections Committee from the meeting of April 4, 2012, I respectfully submit the enclosed map for consideration and incorporation to the final Los Angeles Unified School District map that will impact Districts 4 and 5.

By extending the western boundary of District 5 to Canyon Drive, the US-101, Western Avenue and Wilton Place while reaching north to the city limit, this proposed change would reunite the communities of Atwater Village, Los Feliz and Griffith Park, to include the Zoo Magnet School and John Marshall High School into one single attendance area completely within District 5.

This amendment would not violate the Voting Rights Act, nor adversely impact the population deviations for Districts 4 and 5.

Please feel free to contact Jeanne Min at (213) 473-7004 for any clarifying questions and/or concerns you, or your staff, may have with the above.

Sincerely,

TOM LABONGE
Councilmember, 4th District

BENNETT KAYSER
Board Member

April 10, 2012

Honorable Herb J. Wesson, Jr.
Councilmember, District 10
Los Angeles City Council
200 North Spring Street, Room 430
Los Angeles, CA 90012

Dear Council President Wesson,

As you may know, I joined the Board in July. My background is education and my commitment is to the children of this school district. I have found that redistricting has been a bit of a distraction from the hard work that needs to be done here at LAUSD, particularly in this time of extreme budget pressures.

Despite the odd shape of the new Board District 5, I am eager to get on with the process and to welcome my new constituents. With that said, there are a few minor technical adjustments that remain to be made.

Under the Redistricting Commission's "recommended" map, the neighborhoods of Los Feliz and Atwater are bisected by the new boundary line and the few people residing in the Griffith Park neighborhood are cut-off from the family of schools in the Marshall High complex. I believe these communities would be best served were they made whole.

On behalf of parents and community members in the areas of Atwater Village, Griffith Park and Los Feliz, I am seeking their reunification with Board District 5 and the return of Franklin and Los Feliz elementary schools and John Marshall High School. Doing so would not take the new District 5 out of compliance with deviation norms.

Please do not hesitate to contact me if I may be of assistance to you and your staff in the future.

Sincerely,

Bennett Kayser
Board Member
District 5

Gerry Miller, Chief Legislative Analyst

Re: LAUSD Redistricting

Dear Mr. Miller;

I respectfully request that the proposed new district map that was submitted by the City of Los Angeles Commission for the Redistricting of the Los Angeles Unified School District be adjusted to include into the 1st District the following two schools:

- 32nd Street School
- Dr. Theodore T. Alexander, Jr. Science Center School (Ted Alexander School)

These two schools are currently in the 1st District, they are essential parts of the feeder school pattern connected to other schools that are in the 1st District and they are not essential to the Districts that they have been placed into in the proposed maps.

Your prompt attention to adjusting this matter will better serve the citizens and students of Los Angeles.

Sincerely,

Dermot D. Givens, Commissioner
LAUSD Redistricting Commission (1st District Appointee)

Cc: Hon. Herb Wesson, President, LA City Council

C.3 - Re-Alignment of Districts 2 and 5

HERB J. WESSON, JR.
COUNCILMEMBER, 10TH DISTRICT
PRESIDENT, LOS ANGELES CITY COUNCIL

April 20, 2012

Gerry F. Miller
Chief Legislative Analyst
City of Los Angeles
200 N. Spring Street, Room 255
Los Angeles, CA 90012

Dear Mr. Miller:

RE: LAUSD REDISTRICTING PLAN

I am submitting the attached amended map for the Los Angeles Unified School District that makes modifications to the proposed borders of Board Districts 1, 2, 4, 5, and 7. The amendments I am proposing reflect testimony received during the Rules and Elections hearings, a desire to keep communities and geographies whole, to respect the historical boundaries of LAUSD districts, and reflect the Charter's mandate that LAUSD redistricting plans keep high school attendance areas whole when possible.

The proposal moves the boundaries of Board District 5 largely back to its existing connection, keeps Eastside and East Los Angeles communities intact, ensures that the communities of Koreatown, Filipinotown, Chinatown, and Little Tokyo are kept whole in one Board District, and significantly reduces the number of high school attendance zones, neighborhoods, and communities that are split among different districts. The amendments also reflect testimony that requested that the John Marshall High School area be unified into a single Board District.

Please contact my Assistant Chief Deputy Andrew Westall at (213) 473-7010 for any clarifying questions or concerns you, or your staff, may have.

Sincerely,

Herb J. Wesson Jr.

HERB J. WESSON, JR.
President, Los Angeles City Council
Councilmember, 10th District
