RE: Community Care Facilities Ordinance CF-11-0262
City Council 1-30-13

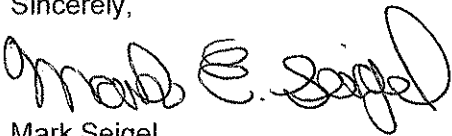

Dear Honorable Councilmembers,

This letter reaffirms the Sunland-Tujunga Neighborhood Council's support that the City establish a balanced ordinance regarding Community Care Facilities. This ordinance has been thoroughly reviewed and vetted by communities across the City. Its time for you to take action and approve this ordinance today.

We urge your support today so our R1 neighborhoods can be protected and return stability for our families within the City of Los Angeles. This ordinance, in its latest draft, does not discriminate against those with disabilities. Other cities have much tighter group house regulations. Our public safety officials will have clearer guidelines and tools for enforcement. In every survey and every budget, the safety of the public is number one and we know you too support public safety, number one.

Thank you for your support in passing the CCFO today.

Sincerely,

Mark Seigel
President

cc: Richard Alarcon, Council District 7
