Case File # 11-0262

Dear Councilman Reyes

I am in your council district and I know that you are concerned about this issue as well.

I would like to request that you consider a very balanced approach to the proposed community care ordinance. In a neighborhood like mine which is all single family homes it is very disruptive to have a home where they are 40 unrelated people living together. It is certainly unfair to the residents of the home itself where the overcrowding must be so stressful. The home near my house is called a sober living facility which I would have no objection to if there were 6 or 7 people living there. How can real treatment and rehabilitation go on when 40 people are all jammed together.

Thank you for your consideration
