RE: COUNCIL FILE 11-0262, PROPOSED COMMUNITY-CARE LICENSING ORDINANCE

Dear Council Members:

I am currently receiving services at People in Progress, and I am a member of AWARE. Always Working toward Advancing Recovery Environments. We are 1000 to 1500 voices of recovery in the Los Angeles community and I am writing to urge your opposition to the above-referenced draft ordinance because the ordinance's negative impact on my personal treatment and that of friends and family that may need such treatment in the future.

With the limitations for Parking and Two per room residency, only the rich and famous will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like the one I am currently in. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity and that you will take steps to modify this ordinance.

Sincerely,

M.P. Clarence Harris

Dear Council Members:

I am currently receiving services at People in Progress, and I am a member of AWARE. Always Working toward Advancing Recovery Environments. We are 1000 to 1500 voices of recovery in the Los Angeles community and I am writing to urge your opposition to the above-referenced draft ordinance because the ordinance's negative impact on my personal treatment and that of friends and family that may need such treatment in the future.

With the limitations for Parking and Two per room residency, only the rich and famous will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like the one I am currently in. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity and that you will take steps to modify this ordinance.

Sincerely,

Alvarado, Tony

RE: COUNCIL FILE 11-0262, PROPOSED COMMUNITY-CARE LICENSING ORDINANCE

Dear Council Members:

I am an Alumni of Tarzana Treatment Centers, Inc. and I am a member of AWARE. Always Working toward Advancing Recovery Environments. We are 1000 to 1500 voices of recovery in the Los Angeles community and I am writing to urge your opposition to the above-referenced draft ordinance because the ordinance's negative impact on my personal treatment and that of friends and family that may need such treatment in the future.

With the limitations for Parking and Two per room residency, only the rich and famous will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like the one I am currently in. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity and that you will take steps to modify this ordinance.

Sincerely,

91335

RE: COUNCIL FILE 11-0262, PROPOSED COMMUNITY-CARE LICENSING ORDINANCE

Dear Council Members:

On behalf of AWARE (Always Working toward Advancing Recovery Environments) We are writing to urge your opposition to the above-referenced draft ordinance because the ordinance's negative impact on our members who are those who receive a myriad of services through Substance Use Disorder Treatment and Recovery services. AWARE is a grass-roots organization supported by CAADPE (California Association of Alcohol and Drug Program Executives) which is made up of Treatment Professionals, Clients and Alumni of Treatment Programs and their families and friends who are interested in educating the public, local and state government and others about the effectiveness of prevention and treatment services. We are made up of about 1500 – 2000 voices for recovery in the Southern California area.

As the AWARE Liaison, it is my job to help coordinate and lift the voice of those affected by the disease of addiction in an effort to impact policy makers and others about the need, importance and success that is possible through prevention and treatment services. We have been serving in the community since 1989 and participate in local civic activities to improve the City of Los Angeles. The proposed ordinance would result in closing our supportive housing homes, putting vulnerable and disable service recipients on the streets, and set our course backwards in our community.

As many of you have signed a pledge with the Home for Good initiative, I hope you are AWARE that both United Way of Greater Los Angeles and L.A. Area Chamber of Commerce both oppose this ordinance which would cause greater homelessness in Los Angeles and would exacerbate both veteran and chronic homelessness.

Also, With the limitations for Parking and Two per room residency, only those who can afford treatment (those with Health Coverage or availability of funding ... i.e. the wealthy) will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like those we support. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

We recommend strengthening the ordinance by eliminating the re-definition of "boarding or rooming house," eliminating the single lease requirement in the definition of "single housekeeping unit," and simply enforce the state occupancy standard described in such licensing and remove the new imposed parking standard.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity, and that you will take steps to modify and/or oppose this ordinance.

Thank you very much for your consideration.

Respectfully,

John O. Whitaker, Jr., CATC II
AWARE Liaison
Tarzana Treatment Centers, Inc.

AWARE's mission: To empower and encourage the recovery community, including the families and significant others, to contribute to, and actively participate in, public dialogue about alcohol and other drug services.

With the limitations for Parking and Two per room residency, only the rich and famous will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like the one I am currently in. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity and that you will take steps to modify this ordinance.

Sincerely,

Dominick Roman

RE: COUNCIL FILE 11-0262, PROPOSED COMMUNITY-CARE LICENSING ORDINANCE

Dear Council Members:

I am an Alumni of Tarzana Treatment Centers, Inc. and I am a member of AWARE. Always Working toward Advancing Recovery Environments. We are 1000 to 1500 voices of recovery in the Los Angeles community and I am writing to urge your opposition to the above-referenced draft ordinance because the ordinance's negative impact on my personal treatment and that of friends and family that may need such treatment in the future.

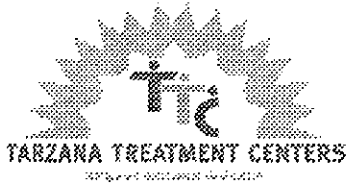

With the limitations for Parking and Two per room residency, only the rich and famous will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like the one I am currently in. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity and that you will take steps to modify this ordinance.

Sincerely,

James Musich

RE: COUNCIL FILE 11-0262, PROPOSED COMMUNITY-CARE LICENSING ORDINANCE

Dear Council Members:

I am a resident at Tarzana Treatment Centers, Inc. and I am a member of AWARE. Always Working toward Advancing Recovery Environments. We are 1000 to 1500 voices of recovery in the Los Angeles community and I am writing to urge your opposition to the above-referenced draft ordinance because the ordinance's negative impact on my personal treatment and that of friends and family that may need such treatment in the future.

With the limitations for Parking and Two per room residency, only the rich and famous will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like the one I am currently in. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity and that you will take steps to modify this ordinance.

Sincerely,

91356

To Honorable May Concern:

I'd like to start this letter by introducing myself. My name is Julie Nua In an alumni of Sarzana Treatment Center. Also In a mother of 4 beautiful children and have been married to the same wonderful man for 19 years.

With Sarzana Treatment Center, a sober living home and the grace of God I was able to get clean and sober and save my family.

Unfortunately after 7 years I started drinking alcohol, obsessively and taking a large amount of pain pills after multiple surgeries. Once again I turned to Sarzana Treatment Center. My husband insist that I go to a sober living again to sustain my sobriety.

He informed me if I don't
go to La sober living he
will divorce me. That would
tear my family apart. Please
reconsider your opposition.
There are so many in need
of these services. Thank you
in advance for your attention
to this matter.

Sincerely,
~~and~~

I am an Alumni of Tarzana Treatment Centers, Inc. and I am a member of AWARE. Always Working toward Advancing Recovery Environments. We are 1000 to 1500 voices of recovery in the Los Angeles community and I am writing to urge your opposition to the above-referenced draft ordinance because the ordinance's negative impact on my personal treatment and that of friends and family that may need such treatment in the future.

With the limitations for Parking and Two per room residency, only the rich and famous will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like the one I am currently in. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity and that you will take steps to modify this ordinance.

Sincerely,

Donna Weddle

RE: COUNCIL FILE 11-0262, PROPOSED COMMUNITY-CARE LICENSING ORDINANCE

Dear Council Members:

I am currently receiving services at Tarzana Treatment Centers, Inc., and I am a member of AWARE. Always Working toward Advancing Recovery Environments. We are 1000 to 1500 voices of recovery in the Los Angeles community and I am writing to urge your opposition to the above-referenced draft ordinance because the ordinance's negative impact on my personal treatment and that of friends and family that may need such treatment in the future.

With the limitations for Parking and Two per room residency, only the rich and famous will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like the one I am currently in. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity and that you will take steps to modify this ordinance.

Sincerely,

Manette Lu

I am a resident at Tarzana Treatment Centers, Inc. and I am a member of AWARE. Always Working toward Advancing Recovery Environments. We are 1000 to 1500 voices of recovery in the Los Angeles community and I am writing to urge your opposition to the above-referenced draft ordinance because the ordinance's negative impact on my personal treatment and that of friends and family that may need such treatment in the future.

With the limitations for Parking and Two per room residency, only the rich and famous will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like the one I am currently in. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity and that you will take steps to modify this ordinance.

Sincerely,

 91356

RE: COUNCIL FILE 11-0262, PROPOSED COMMUNITY-CARE LICENSING ORDINANCE

Dear Council Members:

I am a resident at Cri-Help, Inc., and I am a member of AWARE. Always Working toward Advancing Recovery Environments. We are 1000 to 1500 voices of recovery in the Los Angeles community and I am writing to urge your opposition to the above-referenced draft ordinance because the ordinance's negative impact on my personal treatment and that of friends and family that may need such treatment in the future.

With the limitations for Parking and Two per room residency, only the rich and famous will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like the one I am currently in. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity and that you will take steps to modify this ordinance.

Sincerely,

John Moreno

RE: COUNCIL FILE 11-0262, PROPOSED COMMUNITY-CARE LICENSING ORDINANCE

Dear Council Members:

I am a resident at Cri-Help, Inc., and I am a member of AWARE. Always Working toward Advancing Recovery Environments. We are 1000 to 1500 voices of recovery in the Los Angeles community and I am writing to urge your opposition to the above-referenced draft ordinance because the ordinance's negative impact on my personal treatment and that of friends and family that may need such treatment in the future.

With the limitations for Parking and Two per room residency, only the rich and famous will have access to treatment as the fiscal impact on current and future programs would make it impossible to treat those in need who can't afford insurance or private payment to organizations like the one I am currently in. Please make sure that treatment and recovery remain available by voting against the above-referenced ordinance.

Thank you for your attention to this issue. I hope you will recognize the cost of driving even a single person into homelessness or reducing treatment capacity and that you will take steps to modify this ordinance.

Sincerely,

Timothy F. Grab
