

24th February 2011

To: Whom It May Concern

From: Residents of Appian Way, Los Angeles, 90046

We, the residents of Appian Way, have learned of a proposed Sober Living Facility to be opened and operational at 8746 Appian Way..

No notice was given to any residents, no permits have been applied for, and we feel the numerous impacts this facility will have are insurmountable. We petition to stop any further advancement to opening this business here in our residential area.

Community impacts include and are unfortunately not limited to the following:

1. Appian Way is a sub standard street and in some areas is barely wide enough to let a fire truck through. A heavy increase in traffic, parking requirements etc., will further compromise the ability of emergency vehicles of any kind to reach our neighborhood.
2. This is a HIGH FIRE RISK ZONE. Only one insurance company will underwrite in this area. The proposed housing is located right in the middle of a canyon where a cigarette butt carelessly disposed of could jeopardize all of our homes.
3. All the houses in this immediate vicinity are on septic systems. The residentially zoned septic system for this property is for a single family. The impact of dramatically increasing septic input could be the seepage of raw sewage into the canyon. This would have a disastrous effect on the ecosystem of our canyon and pose serious health risks.
4. Property value on our homes will immediately depreciate. Transient boarding in our neighborhood is not attractive to future buyers, especially those with young families.
5. Concern over personal and property safety. We feel that transient boarders bring with them a transient population. Our Street is not a thoroughfare: anyone in the area either lives here or is visiting. We have a very low crime profile which we do not want to see increased. Numerous studies have shown significant increases in crime where such facilities open in residential areas.

We implore you to take this under careful and appropriate scrutiny. We feel that the location of this proposed halfway house will have serious negative effects on this beautiful, safe, quiet community that we all love.

Thank you for your consideration

Sincerely,

A Resident of Appian Way

4. Property value on our homes will immediately depreciate. Transient boarding in our neighborhood is not attractive to future buyers, especially those with young families.
5. Concern over personal and property safety. We feel that transient boarders bring with them a transient population. Our Street is not a thoroughfare: anyone in the area either lives here or is visiting. We have a very low crime profile which we do not want to see increased. Numerous studies have shown significant increases in crime where such facilities open in residential areas.

We implore you to take this under careful and appropriate scrutiny. We feel that the location of this proposed halfway house will have serious negative effects on this beautiful, safe, quiet community that we all love.

Thank you for your consideration

Sincerely,

Nigel Phelps

From: Residents of Appian Way, Los Angeles, 90046

We, the residents of Appian Way, have learned of a proposed Sober Living Facility to be opened and operational at 8746 Appian Way..

No notice was given to any residents, no permits have been applied for, and we feel the numerous impacts this facility will have are insurmountable. We petition to stop any further advancement to opening this business here in our residential area.

Community impacts include and are unfortunately not limited to the following:

1. Appian Way is a sub standard street and in some areas is barely wide enough to let a fire truck through. A heavy increase in traffic, parking requirements etc., will further compromise the ability of emergency vehicles of any kind to reach our neighborhood.
2. This is a HIGH FIRE RISK ZONE. Only one insurance company will underwrite in this area. The proposed housing is located right in the middle of a canyon where a cigarette butt carelessly disposed of could jeopardize all of our homes.
3. All the houses in this immediate vicinity are on septic systems. The residentially zoned septic system for this property is for a single family. The impact of dramatically increasing septic input could be the seepage of raw sewage into the canyon. This would have a disastrous effect on the ecosystem of our canyon and pose serious health risks.
4. Property value on our homes will immediately depreciate. Transient boarding in our neighborhood is not attractive to future buyers, especially those with young families.
5. Concern over personal and property safety. We feel that transient boarders bring with them a transient population. Our Street is not a thoroughfare: anyone in the area either lives here or is visiting. We have a very low crime profile which we do not want to see increased. Numerous studies have shown significant increases in crime where such facilities open in residential areas.

6. Closest Public Transportation is nearly 2 miles away.

We implore you to take this under careful and appropriate scrutiny. We feel that the location of this proposed halfway house will have serious negative effects on this beautiful, safe, quiet community that we all love.

Thank you for your consideration

Sincerely,

Robert CAPLAIN

Re: 8746 Appian Way

Dear Neighbors,

A number of us in the vicinity of 8746 Appian Way have learned that the non-resident owners of that house intend to convert it to a half-way house. We've put together the attached petition that describes the issues we believe pertinent. We will ask our lawmakers to consider the impact on our neighborhood before allowing it to go forward. It is our hope that you will sign the petition and get it back to us, either through the mail or by dropping it the mail slot at 8743 Appian Way. We will collect, copy and send all the signed petitions to the relevant city and state authorities.

Thanks for giving this your consideration....

Debbie
