Good Morning Councilmembers,

My name is Robert Peppey. I have been a homeowner and thus a property taxpayer in both CD 4 and CD 13 since 1992. I would like to commend all those involved in the LA Street Car Project. I urge you to fully fund the shortfall for the Street Car Line. Also I believe that 7th street rather than 9th street is the best route. With the recent election of David Ryu to council I believe a major roadblock has been removed to consideration of an extension of the the Street Car to the underserved by rail neighborhoods of Elysian Park, Echo Park, Silver Lake, Atwater and Los Feliz. The best route to begin this extension would be Sunset Blvd west to Santa Monica Blvd which serves most of these areas.

Thank You again for your great work on this Project,

Robert Peppey
