HOUSING, COMM & ECON. DEVELOP.

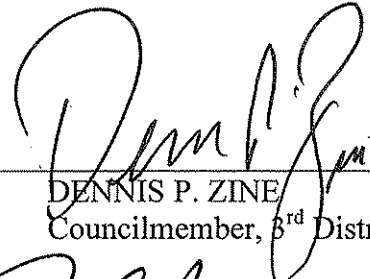

# MOTION

Residents of the City of Los Angeles continue to face challenges in a struggling economy, including finding housing that they can afford. It is for this reason that it is critical that the City ensure that residents who are living in a housing development that received any type of public subsidy are qualified to live there and have been approved through a fair selection process that ensures equal access to affordable housing.

I THEREFORE MOVE that the Los Angeles Housing Department (LAHD), with the assistance of the City Attorney, report to the Housing, Community and Economic Development Committee (HCED) within 30 days on the following:

1. Current rules, regulations and/or practices relative to restricting the relatives of any person who has invested in, developed or managed a housing development/unit(s) in the City that receives any public subsidy, including, but not limited to grants, loans, tax credits or Section 8 vouchers, from living in a unit within the aforementioned housing development/unit(s).
2. Provide recommendations relative to rules or regulations that could be implemented which would restrict a relative, including a definition of "relative," of any person who has invested in, developed or managed a housing development/unit(s) in the City that receives any public subsidy, including, but not limited to grants, loans, tax credits or Section 8 vouchers, from living in a unit within the aforementioned housing development/unit(s).
