Official Public Comment (Non- Agenda Items) (2 Min. Max)

Arturo Gonzales – I am the Senior Advisor for Councilman Reyes and I have a couple of updates for you. We're just about to turn the signal on for a new signal light that will be on Eagle Rock Boulevard and Avenue 31st. Most likely this is going to take place in the next 2 weeks. The other project that's not in Glassell Park but many of you that commute to downtown be aware of the construction that's happening on Riverside Drive and Figueroa. Construction is about halfway completed and it is coming along very nicely. There will be street closures happening between 9a to 3p periodically through September of 2013.

Adam Mezquita - Glassell Park is improving in reduction of crime and there are no incidents to report. Graffiti is increasing and on April 22 we will be getting a 2 man graffiti combat team.

Nate Hayward/CD14 Field Deputy – Captain Murphy has been promoted to Commander. Our office had a going away/meet and greet with the new Captain about a month ago and it was well attended. On April 6 our office hosted a Northeast Elected Officials Meet and Greet at the Center for the Arts. Our goal is to better help integrate services and reach out to constituents and hopefully this will be the first of many. Our office is working with Assembly member Gomez on the regulation of Massage Parlors. We're excited to work with you on the Verdugo Village Bock Party and provide resources in an area of Glassell Park that doesn't get as much recognition that I feel it deserves. There could possibly be bicycle lanes going in as part of the 2010 Bicycle Master Plan. We're working with DOT to incorporate some of the concerns people have regarding cars in the median and blocking Colorado Boulevard and how we can make the streets better for pedestrians, cyclists, cars, etc.

Mitch O'Farrell – Running for City Council in the 13th District. I would like to thank -you for serving, it's a great calling to serve your community. Some of my proudest moments were working with the community to create this community center. I'm ready for City Council to put my many years of living, working and volunteering here to greater use as Los Angeles City Council. I won the primary on March 5 and my team was 5th in fundraising and we still came out ahead out of 11 opponents. Economic Development and Jobs will be my main focus on Los Angeles City Council as well as public infrastructure. I look forward to serving you on Los Angeles City Council and the election is May 21.

Hector Rivera – I work for Councilman John Choi's office. All of you being here on a day in and day out basis, it's very seldom that you guys get a Thank you. I would like to thank you for all of the work that you do.

Melvin Conyas – I am Project Coordinator from the Department of Neighborhood Empowerment. We had a board retreat training a couple of Saturday's ago. We had a good small group of board members there. An important thing to note is the Deadline for funding matters is May 15 and June 14 is the last day you will be able to use your P-card.

Tom Topping – I publish the Boulevard Sentinel Newspaper. Since the issue of the bike lane came up I've been getting responses from residents who weren't notified of the bike lane proposal. I put a ballot in the paper and took a vote. Out of 150 responses, 4 were in favor of the new bicycle lanes and everyone else was opposed. I have combined them with petitions that were circulated by commercial printing by the businesses in Eagle Rock. We think the streets are too narrow here and we don't want to lose the traffic lanes. I have a total of 573 individuals in support of saving the traffic lanes.

Jesse Medina – I'm really happy to see that you are considering some Community Impact Statements tonight. I know that some of you are new but when you vote on these, it is part of the official record for City Council. I think it's really important and I hope you guys make it a part of your due diligence as being a part of the Neighborhood Council. I attended the Los Angeles Neighborhood Council meeting and I am still kind of discouraged that I didn't see any of you there. It's a great opportunity for you to become informed on what's happening with other neighborhood councils.

f. Motion/Resolution to Submit a Community Impact Statement Regarding CF11-1912-S1 Neighborhood Council Elections

Bradley – The LANCC group did bring these items to the GPNC. LANCC feels a CIS would assist in making that request or resolution one that would carry weight. The item being considered has to do with the Education neighborhoods Committee to have the Department of Neighborhood Empowerment in conjunction with City Clerk’s office hold the Neighborhood Council elections and encumbrances related to any Neighborhood Elections Outreach.

Bradley makes a motion to approve a CIS in reference to 11-1912-S1 and funding encumbrances with DONE. Seconded by Art Camarillo.

4). Request for Funding up to (\$1,500) for the “Lummus Day Event.”

Bradley – The committee did receive an application and the applicant was present. The committee did recommend approval with conditions that a new application be re-submitted with some clarifications.

Applicant – This event does not provide free food. Currently revising the flyer to include all sponsors. The event is free and attendees will only have to pay for food from the food trucks provided. All the music comes from Northeast Los Angeles.

Bradley – One of the major concerns brought forth by the Grants & Funding Committee was the connection of the event to Glassell Park. I’m hoping the connection has been made at this level for the board.

Art Camarillo – We have supported events like Peace in the North East and Veteran’s Day Parade because we have participants in Glassell Park or attendees.

f. Report/Recommendations/Status/Update Website Ad-Hoc Committee

Andre Sahakian – I’ve been working with the website Ad Hoc committee for the past several months. We set up the new website through a new word press account. We had several websites before but lost information on the log-in. Our solution was to implement a framework website for the elections process and once the elections we’re done we re-vamped it to make it a full servicing Neighborhood Council website. Keep in mind it’s still a work in progress and were still adding more information. The goal is to open up the Neighborhood Council to the community and provide more transparency and engage the community. We included a link to Empower LA on the home page as well as a link to like

our Facebook and a live twitter feed. We have a link that talks about the History of Neighborhood Councils, a page that lists all of the board members as well as contact information, photo gallery and a PDF of the boundary map. You can also access the bylaws. Any one of these pages can be shared on social media. We also have a Google calendar that will update you on all important meetings. Right now I am in the process of locating all the previous minutes and agendas and updating them on the website. We're always looking for input or feedback so feel free to talk to myself or anyone involved in the Website Ad Hoc committee.
