

11-1357-S1

JUL 31 2012

MOTION

Over the past several years, the City has initiated a process of transforming itself to reduce costs, enhance revenue and collection, improve efficiency, and set the course for long-term fiscal manageability and sustainability.

As it has done in the past several years, the Council should devote time to exploring new revenue options and hearing status reports from City staff regarding revenue and collection. During its deliberations on the 2012-13 Budget, the Budget and Finance committee expressed an interest in devoting an upcoming Council meeting as a Revenue Day to further that objective.

I THEREFORE MOVE that the City Council instruct the City Clerk to schedule Revenue Day for Tuesday, August 21, 2012.

I FURTHER MOVE that the Council instruct the CAO and CLA to present to the City Council an update on the status of revenue items, as well as other possible revenue proposals for generating, enhancing or improving collection of City revenues, including measures that would require voter approval, and that the Office of Finance present a status of revenue collection efforts.

Presented by: Paul Kerkorian
PAUL KREKORIAN
Councilmember, 2nd District
