11-1429

L A City Council Public Safety Committee

Please protect our kids from being brainwashed and manipulated by the alcohol industry ads that try to make them think drinking is cool I wish my city (San Diego) would ban these ads You have the chance to do it now, please don't allow these ads on public property.

Alcohol ads on public property are troubling and harmful.

At a time when there is a lack of services to treat alcohol-related harm, I agree with Council Member Richard Alarcon that the City of Los Angeles should not promote alcohol sales or consumption on its own property

The L.A. County Department of Public Health recommends "reducing alcohol advertising in public spaces and in areas commonly seen by minors," as a way to help discourage underage drinking

Families and youth utilize city owned and controlled property on a daily basis, such as school buildings, recreation centers, libraries and bus shelters. The City of Los Angeles should play a positive role in reducing exposure to alcohol ads.

Please vote YES to ban alcohol ads on public property to benefit youth and reduce alcohol related public safety expenses.

Your YES vote will protect the health and safety of all L.A. residents and visitors.

Sincerely,

Marcie BEckett

From: Linda Kearns
Subj: Vote YES to ban alcohol ads on L. A. City Public Property

L A City Council Public Safety Committee

I have worked in the drug and alcohol prevention and treatment field for over 35 years. This request to ban alcohol ads is based on solid research showing that overt alcohol advertising where minors are present contributes to a higher and earlier use of alcohol, which, in turn, leads to more lifelong problems related to alcohol abuse for some.

At a time when there is a lack of services to treat alcohol-related harm, I agree with Council Member Richard Alarcon that the City of Los Angeles should not promote alcohol sales or consumption on its own property
