From Susaan Aram
Subj: Vote YES to ban alcohol ads on L. A. City Public Property

11-1429

L A City Council Public Safety Committee

Alcohol ads on public property are troubling and harmful.

At a time when there is a lack of services to treat alcohol-related harm, I agree with Council Member Richard Alarcon that the City of Los Angeles should not promote alcohol sales or consumption on its own property

The L A County Department of Public Health recommends "reducing alcohol advertising in public spaces and in areas commonly seen by minors," as a way to help discourage underage drinking.

Families and youth utilize city owned and controlled property on a daily basis, such as school buildings, recreation centers, libraries and bus shelters. The City of Los Angeles should play a positive role in reducing exposure to alcohol ads.

Please vote YES to ban alcohol ads on public property to benefit youth and reduce alcohol related public safety expenses.

Your YES vote will protect the health and safety of all L.A. residents and visitors.

Sincerely,

Susaan Aram

Tax payers do not need to be promoting a substance that causes overwhelming costs to the judicial, social service and health systems of the community by a private business
