

Ban the Bag!!

CALPIRG

Dear City Council and State Legislator,

The 12 billion plastic bags used by Californians every year are harming our marine life, degrading our coastline, threatening human health, and jeopardizing California's economy. Cities across the state from Berkeley to Pasadena have been helping to fight plastic pollution by banning plastic bags. The truth is that nothing we use for a few minutes should pollute our ocean for hundreds of years. I support banning single-use plastic bags in my city and all across California.
