I oppose the ban on single use plastic bags a paper bags for the following reasons:

- I use these bags for trash and if banned I will then have to purchase plastic trash bags. Either way I use a plastic bag.
- Reusing the same bag doesn't seem very hygenic
- Banning plastic bags will cost mfg jobs
- I am sick of this encroaching nanny state

Regards,  
Russell Glatt

Mr. Villanueva ,

Add my letter to file 11-1531

I strongly oppose the ban on plastic &/ or paper bags . These are not single use bags . To label them as such is misleading .Most responsible dog owners use plastic bags to clean up after their dogs . Also I use them & paper bags to clean our cat box . these are very sanitary uses which will be nullified with a foolish ban.

Thank You
