Dear General Manager Reynolds,

For the past 5 years, our Melrose Hill Neighborhood has been blighted by vehicles pushing down newly planted City street trees and parking on our grass parkways and blocking our commercial sidewalks. For the last 5 years, your local Hollywood Parking Enforcement Officers have explained to us that they cannot cite the vehicles on either our residential grass parkways or our paved commercial pedestrian sidewalks. Yes, that includes our commercial sidewalks, which is really bizarre.

Is there any chance of effective enforcement. We are sure your intent is not to blight our neighborhood. Please note that we have no objection to parking in the driveway apron. Our concern is with your staffs INTERPRETATION that it somehow applies to blighting our parkways, destroying our street trees, and blocking our commercial pedestrian sidewalks.

Sincerely, Edward Villareal Hunt, AIA, ASLA; 323-646-6287

Hi Ed,

No, that information is certainly public. The current General Manager is Seleta Reynolds.

Thanks!

Thank you Angelo. We will do so. We hope our parkways will soon be returned to grass and Street Trees with parking thereon clearly prohibited.

Any progress with enforcement of parking in a residential front yard in our neighborhood?

If it is not confidential, please send us the name of the current DOT General Manager.

Sincerely, Edward Villareal Hunt, AIA, ASLA; Chair, Planning Committee, Melrose Hill Neighborhood Association

Friends,

On behalf of Councilmember O'Farrell, I would like to provide you with an update on the parkway parking issue.

As you know, it has been a priority of Councilmember O'Farrell's to restart enforcement of parkway parking due to the negative effects it has on quality of life and its damaging impact on infrastructure and parkway landscaping.

Unfortunately at today's Transportation Committee meeting, the Chair opted to postpone the hearing of this Ordinance to a future date. Councilmember O'Farrell will continue to work and push for the Ordinance to be heard and adopted as soon as possible.

Councilmember O'Farrell still urges

you to contact Councilmember Bonin, Chair of the Transportation Committee, and submit your comments as part of the official record to be displayed on the Council File.

Please send your correspondence to Transportation Committee Clerk Adam Lid at [<adam.lid@lacity.org>](mailto:adam.lid@lacity.org) and please be sure to reference Council File 11-1676 in your subject line.

Take care,

Angelo
