Comments for Public Posting: Please do NOT allow any more Electronic Billboards in residential areas or where they can be viewed from residential areas. No more of these visually intrusive signs! They are a distraction!

Comments for Public Posting: I'm writing to not allow electronic/digital billboards along the Crenshaw corridor and asking the city to block Clear Channel and any other outdoor advertising company from erecting these billboards in that area. Along with the distraction to drivers and other safety concerns, it's not the correct choice for these neighborhoods. Thanks, Jeremy Diller

Comments for Public Posting: Regarding the Clear Channel Electronic signs that are being suggested for the Crenshaw Corridor: This is a bad idea. If anyone on the council lived in the area, you would know that these signs are horrible. The ones in Inglewood are bad enough. These signs are a huge distraction to people driving and unsafe for pedestrians, cyclist and drivers. We have enough issues in the Park Mesa, Angeles Mesa and Crenshaw area with drivers speeding through neighborhoods and the main streets that this will only add to the safety issues in the area. There are drivers speeding down 7th ave and other streets causing hazards. You put these signs and more accidents will happen. Also, you adding the signs to a street that once the metro get up and running will also create traffic problems. People speed now...how many accidents are going to happen once the metro train is running down Crenshaw. People will try to speed across the tracks to bet the light and now you have big glowing billboards to add to the confusion for train running beside the street, new signals, new lights, speeding, bike traffic and people walking. The area needs more legit businesses not Clear Channel causing a Blight in the area.
