Comments for Public Posting: I'm writing because I am a resident of Angeles Mesa and strongly oppose digital billboards in the Los Angeles Community of Park Mesa Heights (90043 zip/CD 8). There's a plan proposing we have a limited number. I am writing to say that any number is not what the community is asking for. They do not and will not fit in with the landscape of our corridors. It's bad enough we are the only community dealing with an above ground train along a MAJOR corridor inflicting harm on our community concerning serious traffic, safety, and beautification issues. We don't need the distraction of digital billboards to make a bad situation worse. Please give our community the respect it deserves and reject any proposals for digital billboards. Thank you.
