Subject: Ads in Parks must not be approved

To: [sharon.gin@lacity.org](mailto:sharon.gin@lacity.org)

All of you who are in control over what happens must realize that we are counting on you to do the right thing. Please.

O. Off-Site Signs in City Parks and Facilities.

Notwithstanding any other language to the contrary in the Code, to include Section 14.4.3 A and Section 14.4.24 D, no off-site sign shall be allowed in any park or other facility owned by the City of Los Angeles unless such sign is allowed within a Sign District established pursuant to Section 13.11 of this Code.

There are 16 proposed Sign Districts throughout the basin and valley grandfathered into this ordinance. Some are many city blocks in size. The underlined language can be used to justify selling advertising in parks, rec centers, pocket parks, senior centers, museums and all other city owned properties that fall within a Sign Districts' boundaries. This is wrong. A park is a park and a public facility is a public facility no matter where it is situated.

Subject: advertising in parks  
To: [sharon.gin@lacity.org](mailto:sharon.gin@lacity.org)

To: PLUM committee:

Please do not allow advertising in parks.

I know you think it will save money and keep parks open, but this is the wrong way to do it. Do not allow private entities to invade public parks. Public parks can not be bought.

Parks are not meant to be a place for promoting products with visual ads and billboards.

I am against this proposal and hope that all city council members vote against it.

Sincerely,

Lynn Sosa

To: [sharon.gin@lacity.org](mailto:sharon.gin@lacity.org), [councilmember.reyes@lacity.org](mailto:councilmember.reyes@lacity.org), [councilmember.krekorian@lacity.org](mailto:councilmember.krekorian@lacity.org),  
[councilmember.@huizar@lacity.org](mailto:councilmember.@huizar@lacity.org)

Dear Council Members,

I am an avid Park user. I encourage others to use the Parks, especially children.

Parks provide the "escape" from the commercial world into a peaceful oasis of nature and one's thoughts, which should be free-flowing and not subject to the influences of advertising. This is why I am extremely opposed to what I consider a major LOOP-HOLE in the proposed revised ordinance,

*"Section 14.4.3 A and Section 14.4.24 D, no off-site sign shall be allowed in any park or other facility owned by the City of Los Angeles unless such sign is allowed within a Sign District established pursuant to Section 13.11 of this Code.*

Goodness, there are MANY Parks included in the areas of "Sign Districts." In fact, many of the "Sign Districts" are in communities which are high-density, and park-poor, making it more obvious to me these are the areas where potential "signage" does the most damage. This loop hole, if approved, would allow the presence of "banner ads" in Griffith Park, which is the jewel of our city.

It would be shameful to pass this Ordinance as it is currently written. Clearly, with all due respect, it is time for the writers to return to their "writing table" and produce a document which eliminates this loop-hole, and would help ensure our Parks can remain the commercial-free haven of recreation and relaxation they are meant to be.

Sincerely,

Mary J. Button  
Park Advocate, especially Griffith Park!

Councilmember Ed Reyes, Chair  
City of Los Angeles  
Planning and Land Use Management Committee  
200 N. Spring St  
Los Angeles, CA 90012

Re: Council file 08-2020, Citywide Sign Ordinance, Dec 2011 session

Dear Councilmember Reyes,

Friends of Griffith Park opposes the adoption of the newly revised Citywide Sign Ordinance in its present form, until such time that a “**loop-hole**” is removed. Although the current proposed revision prohibits commercial advertising signs in parks and public facilities, an exemption exists for these properties which fall within sign districts. **This exemption must be removed.** With the exemption, many neighborhood parks within these zones are in jeopardy of becoming the backdrops for advertising. These are parks where it is crucial that children be allowed to recreate creatively in an ad-free environment. Additionally, the precedent set by permitting advertising in these parks and public facilities will be exploited by the billboard industry to justify the introduction of advertising to all parks and public facilities.

We respectfully ask you to eliminate the language underlined below:

*SEC. 14.4.4. General Provisions (page 20)*

*O. Off-Site Signs in City Parks and Facilities.*

*Notwithstanding any other language to the contrary in the Code, to include Section 14.4.3 A and Section 14.4.24 D, no off-site sign shall be allowed in any park or other facility owned by the City of Los Angeles unless such sign is allowed within a Sign District established pursuant to Section 13.11 of this Code.*

By removing the underlined language, the draft will conform to your direction of October 18, 2011 to the Planning Department that the ordinance contain no loop-holes that could permit advertising in parks and public facilities.

Sincerely,

Gerry Hans  
President

Re: Council File 08-2020 Citywide Sign Ordinance Revisions

Dear Committee Members:

The spread of billboards, digital signs, and other forms of commercial advertising blights our communities. Please help us protect them for ourselves, our friends and neighbors, and our children by making sure the new sign ordinance does the following :

- Keeps commercial advertising out of parks and public facilities, without any loopholes or exceptions.
- Requires that any new advertising signs in sign district be offset with the takedown of billboards in surrounding communities, at a square footage ratio of at least one-to-one.
- Requires sign companies to bring all billboards that violate their permits into compliance, rather than allowing an "adjustment" for signs up to 20 per cent higher and larger than permitted.
- Allows only on-site, or business, signs in Comprehensive Sign programs.
- Doesn't allow the "grandfathering" of 14 "applied-for" sign districts that would allow them to be established under the much more liberal provisions of the current citywide ordinance.

Sincerely,

Richard Parks

[councilmember.reyes@lacity.org](mailto:councilmember.reyes@lacity.org), [councilmember.huizar@lacity.org](mailto:councilmember.huizar@lacity.org)

Dear Councilmembers Reyes, Krekorian, and Huizar,

There are 16 proposed Sign Districts throughout the basin and valley grandfathered into this ordinance. Some are many city blocks in size.

The underlined language can be used to justify selling advertising in parks, recreation centers, pocket parks, senior centers, museums and all other city owned properties that fall within a Sign District's boundaries. This is very wrong.

A park is a park and a public facility is a public facility no matter where it is situated. Whether a park exists now or is in the planning stage, it should not be redefined by the private sector as another place or surface in or on which commercial goals and profits can be advanced.

Additionally, we should recognize that once commercial advertising is established in public parks and facilities that happen to be within Sign Districts, attorneys for the billboard industry will point to this precedent as justification for introducing off-site signs in all of the city's parks and public facilities, either through legal challenges (disparate treatment) or by exerting relentless pressure to amend or reinterpret provisions of the final ordinance.

**The underlined language must go.**

Sincerely,

Elaine Brown

To: [sharon.gin@lacity.org](mailto:sharon.gin@lacity.org)

Dear Sharon

I am a Los Angeles resident and I am registered to vote here. I am keenly interested in the upcoming meeting on Monday Afternoon about revisions to the citywide sign ordinance. I have some goals for the new ordinance and I am telling them to you; please pass my message along to the relevant PLUM committee members: Reyes, Huizar, and Krekorian.

Specifically, I want the new sign ordinance to do the following things:

- Allow only on-site signs for businesses.
- Forbid "grandfathering" in the case of the "applied-for" sign districts. I think there are 14 of these and they are all unnecessary.
- Keep commercial advertising out of parks and public facilities: no loopholes!
- Require companies to bring billboards into compliance, instead of allowing adjustments that have been major loopholes in the past.

Thank you for noting my concerns. I may come to the meeting on Monday if I can get away from work.

Yours cordially

Please distribute my letter to committee members before the Monday, December 5, 2011, meeting. Thank you.

To: Planning and Land Use Management Committee

Ed Reyes, Chairman  
Jose Huizar  
Paul Krekorian

Dear Committee Members:

The public should have a right to be free from unwanted advertising, be it while we wait in our car or stand at a corner for the stop light to turn green, or walking through a park in search of tranquility. Think of the children who walk down the streets or play in the parks, is it healthy for them to have this constant barrage of outdoor advertising? And at what point must the public space we all must share together not be for sale?

I implore you to act as good statesmen and stop the spread of billboards, digital signs, and other forms of commercial advertising causing blight in our communities. Please make certain that the new sign ordinance does the following:

- (1) Keep commercial advertising out of parks and public facilities, without any loopholes or exceptions;
- (2) Require that any new advertising signs in sign districts be offset with the takedown of billboards in surrounding communities, at a square footage ratio of at least one-to-one;
- (3) Require sign companies to bring all billboards that violate their permits

Re: File 08-2020 Citywide Sign Ordinance

Dear Councilmembers,

The Brentwood Community Council (“BCC”) is the broadest based organization serving as the voice of the public for the Brentwood community. The BCC has 25 seats, including 14 HOA groups, multi-family, members-at-large, public and private schools, religious, public safety, volunteer, environmental, and business districts.

The following are concerns BCC would like to be considered:

City parks and public facilities should be off-limits to commercial advertising signs, **without exceptions.**

No new off-site advertising signs should be allowed in sign districts without at least a **one-for-one square footage** takedown of exiting billboards in surrounding communities.

Sign companies that illegally erect or modify billboards need to be required to remove them, or bring them into compliance with their permits.

Comprehensive sign programs should **not** allow off-site signs.

All sign districts **not yet approved** by the City Planning Commission should be subject to the requirements of the new sign ordinance. There is no justification for

“grandfathering” sign districts that haven’t been through public hearings, environmental review, or other process.

As stated in correspondence October 15, 2011, “let’s preserve our visual environment. Let us be an example to other cities in effectively *controlling* sign blight, not falling prey to sign industry greed.”

Sincerely,

To: [sharon.gin@lacity.org](mailto:sharon.gin@lacity.org)

Dear PLUM Committee Councilmembers,

Look to São Paulo, Brazil, for ideas on what to do about the proliferation of billboards in Los Angeles:

In 2006, São Paulo was blighted by billboards and signs, and the people saw them as pollution, just like their dirty air and water. They said "no" to billboard pollution in 2006 as part of a clean city initiative, completely eliminating them and imposing strict enforcement measures.

Since then, the economy of São Paulo has powered ahead within a country which boasts one of the fastest growing developing economies in the world. It is good for business! The City has become beautiful with its vertical buildings which feature no ads. Small businesses are on a more level playing field with the large corporations with vast ad budgets. And São Paulo residents support the billboard ban by an extremely high margin.

Keep Los Angeles beautiful, too. And especially keep advertising out of all parks, no matter what. Please eliminate the loophole which opens parks to advertising in some cases. The section in bold should be removed.

#### **SEC. 14.4.4. General Provisions**

##### **O. Off-Site Signs in City Parks and Facilities.**

Notwithstanding any other language to the contrary in the Code, to include Section 14.4.3 A and Section 14.4.24 D, no off-site sign shall be allowed in any park or other facility owned by the City of Los Angeles **unless such sign is allowed within a Sign District established pursuant to Section 13.11 of this Code.**

Dear Ms. Gin,  
Please distribute this letter to all of the committee members.

Dear Committee members,  
As an artist who has 2 public art sculptures in L.A. I am very aware of public settings and there is so much public advertising in Los Angeles that it degrades the humanity of the people who live with it. It affects everyone whether they realize it or not. The businesses that use these services will find other ways to reach there customers without ruining the city for the majority of people who don't need their services. Please don't allow any loopholes for the advertising companies because they have shown that they will exploit any opportunity to use lawyers to tie it up in the courts or ignore the law if it is to there advantage.

Thank you,

Michael Culhane

Re: Council File 08-2020 Citywide Sign Ordinance Revisions

Dear Committee Members:

I have been extremely upset at the proliferation of billboard advertising, and have been following the shenanigans of the billboard companies with a sense of heartsick dismay.

I have watched the steady slide into a cheapened, debased, coarsened environment, with what amounts to a colonization and destruction of a build environment.

The spread of billboards, digital signs, and other forms of commercial advertising blights our communities. Please help us protect them for ourselves, our friends and neighbors, and our children by making sure the new sign ordinance does the following :

-Keeps commercial advertising out of parks and public facilities, without any loopholes or exceptions.

-Requires that any new advertising signs in sign district be offset with the takedown of billboards in surrounding communities, at a square footage ratio of at least one-to-one.

-Requires sign companies to bring all billboards that violate their permits into compliance, rather than allowing an "adjustment" for signs up to 20 per cent higher and larger than permitted.

-Allows only on-site, or business, signs in Comprehensive Sign programs.

Re: Council File 08-2020 Citywide Sign Ordinance Revisions

Dear Committee Members:

The spread of billboards, digital signs, and other forms of commercial advertising blights our communities. Please help us protect them for ourselves, our friends, neighbors, visitors to our city, and our children by making sure the new sign ordinance does the following :

- Keeps commercial advertising out of parks and public facilities, without any loopholes or exceptions.
- Requires that any new advertising signs in sign district be offset with the takedown of billboards in surrounding communities, at a square footage ratio of at least one-to-one.
- Requires sign companies to bring all billboards that violate their permits into compliance, rather than allowing an "adjustment" for signs up to 20 per cent higher and larger than permitted.
- Allows only on-site, or business, signs in Comprehensive Sign programs.
- Doesn't allow the "grandfathering" of 14 "applied-for" sign districts that would allow them to be established under the much more liberal provisions of the current citywide ordinance.

Candy Rosales &lt;candy.rosales@lacity.org&gt;

To the PLUM Committee Members:

The language in Section 14.4.4 General Provisions (p. 20- O. Off-site Signs in City Parks and Facilities) is not acceptable.

Parks are meant to be natural sanctuaries. Any commercial advertising even in conjunction with a park building is inappropriate.

Our parks and public facilities should be off-limits to commercial advertising signs without exceptions.

Please strike the language that allows an exception.

Thank you for your consideration.

Re: Council File 08-2020 Citywide Sign Ordinance Revisions

Dear Committee Members:

The spread of billboards throughout the city has taken on ridiculous dimensions. Billboards blight the city and neighborhoods and pose direct danger to public. Especially the new electronic signs create light pollution and are very distracting to traffic, thus posing a great risk for motorists and especially pedestrians and bicyclists. But even non-electronic billboards are obliterating views, covering architecture and if placed over buildings again pose a fire-danger and make work for the covered-up workers much less pleasant.

I hope you will work to make Los Angeles a better place for all and not just a place for advertisers to get rich! I thus urge you to ensure that the total square footage of advertising space does not increase but actually decreases. I also urge you to close loopholes, like grandfather clauses and other sweet deals.

Sincerely,

A handwritten signature in blue ink that reads "Felix Schweizer". The signature is written in a cursive, flowing style.

Candy Rosales &lt;candy.rosales@lacity.org&gt;

Dear Ms. Gin,

I deplore the city council committee creating loopholes in the municipal code controlling signs. If we are to save LA from the visual blight that has ruined so many other cities we need to keep the teeth in the law. The city of Sao Paulo recently got rid of big signs and billboards altogether and it has been beneficial to that city in many ways. People start to respect their environment more when it isn't trashed by visual blight.

Please distribute this to all members of the committee.

Thank you,

Mark Weber

Re: Council File 08-2020 Citywide Sign Ordinance Revisions

Dear Committee Members:

The spread of billboards, digital signs, and other forms of commercial advertising blights our communities. Please help us protect them for ourselves, our friends and neighbors, and our children by making sure the new sign ordinance does the following :

- Keeps commercial advertising out of parks and public facilities, without any loopholes or exceptions.
- Requires that any new advertising signs in sign district be offset with the takedown of billboards in surrounding communities, at a square footage ratio of at least one-to-one.
- Requires sign companies to bring all billboards that violate their permits into compliance, rather than allowing an "adjustment" for signs up to 20 per cent higher and larger than permitted.
- Allows only on-site, or business, signs in Comprehensive Sign programs.
- Doesn't allow the "grandfathering" of 14 "applied-for" sign districts that would allow them to be established under the much more liberal provisions of the current citywide ordinance.

Sincerely,  
Barry Greenberg

Re: Council File 08-2020 Citywide Sign Ordinance Revisions

Dear Committee Members:

Los Angeles has far too many billboards, digital signs, and commercial advertising, and they seem to be increasing. Please vote with 99% of your constituents to minimize them and keep to the 2002 law. These are the minimum requirements to control signage:

- Keep commercial advertising out of parks and public facilities, without any loopholes or exceptions.
- Require that any new advertising signs in sign district be offset with the takedown of billboards in surrounding communities, at a square footage ratio of at least one-to-one.
- Require sign companies to bring all billboards that violate their permits into compliance, rather than allowing an "adjustment" for signs up to 20 per cent higher and larger than permitted.
- Allow only on-site, or business, signs in Comprehensive Sign programs.
- Don't allow the "grandfathering" of 14 "applied-for" sign districts that would allow them to be established under the much more liberal provisions of the current citywide ordinance.

Sincerely,

To: [sharon.gin@lacity.org](mailto:sharon.gin@lacity.org)  
Cc: nancy freedman <gjf165@gmail.com>

Dear Mrs. Gin

As a private citizen, a v-p of Mandeville Canyon Association, and a member of the Brentwood Community Council,

I vigorously oppose the spread of billboard signs around our City. According to the previous ordinance, no new outdoor off sight signage should take place.

Although the new ordinance has some good components, there are also some loop holes. We do not want our city to look like Las Vegas, but we want to upgrade it like for example Paris, the one in France, where they keep very restricted laws on signage.

We need money for our City, but we are not going to sacrifice our home on the altar of the lucre look.

Please, have the kindness to distribute my letters to our Councilmen.

With much gratitude,

Dear Committee Members:

Please advocate for all communities that are currently (or in the future) in harms way being subjected to the billboard blight, digital signs and other commercial advertising. This means of advertising not only create a distraction, but they are an eyesore and create havoc auditorially if you live by them. It is in the interest of the public to protect its airspace and to create an environment that is safe--unpolluted with visual distractions and noise that can be heard by households, nearby. Our communities are requesting that you represent the public's interest rather than business interests by advocating:

- No advertising shall be allowed in any of our parks
- Digital signs will be held to limited brightness levels
- On-site signs must be more restricted.
- Sign companies must bring all billboards in violation of their permits into strict compliance.
- No "grandfathering" of applied for Sign Districts.

Dear Ms. Gin;

Please distribute the following letter to committee members before Monday's meeting.

To: Planning and Land Use Management Committee

Please help prevent billboard blight by making sure that the new ordinance does the following:

- Keep commercial advertising out of parks and public facilities, without any loopholes or exceptions.
- Requires that any new advertising signs in sign district be offset with the takedown of billboards in surrounding communities, at a square footage ratio of a lease one-to-one.
- Requires sign companies to bring all billboards that violate their permits into compliance, rather than allowing an "adjustment" for signs up to 20 percent higher and larger than permitted.
- Allows only on-site, or business, signs in Comprehensive Sign programs.
- Doesn't allow the "grandfathering" of 14 "applied-for" sign districts that would allow them to be established under the much more liberal provisions of the current citywide ordinance.

L.A., CA 90012

**Re: Council File 08-2020 and 11-1705 Citywide Sign Ordinance**

Dear PLUM Committee Members:

I am once more writing to you on behalf of Bel Air Skycrest Property Owners' Association to let you know how very concerned we are about the revised Sign Ordinance which will be the subject of a special Monday, December 5<sup>th</sup> PLUM hearing.

L.A. is desperately in need of a meaningful ordinance to regulate digital billboards, supergraphics, and other forms of signage throughout our city and to ensure genuine and lasting protection for scenic highways, parkways, corridors, Specific Plan areas, and residential neighborhoods, as well as parks, schools, libraries, and other public facilities. While some protections of this nature have been written into the current ordinance revision, there are far too many loopholes, through which the billboard companies could still gain backdoor access to our precious public spaces.

**Please make sure that the many loopholes in this current draft are closed before you recommend its passage.** In particular, our community again asks for assurance that all scenic highways, parks and public facilities will be kept free from commercial signage, with no loopholes or exceptions.

We ask that only on-site, or business signs be allowed in the Comprehensive Sign programs.

We ask that billboards that violate their permits be brought into compliance, without loopholes or exceptions. And as for the new 3-page section that defines a fines appeal process – there should be no such appeal process. If you violate the ordinance, you need to pay the fines. End of story.

Perhaps most importantly, the ordinance needs to be returned to the original concept of **NO NET GAIN in total number of billboards across the City.** When new signs go up, old signs must come down via a mandatory "takedown" provision – no loopholes or exceptions. Contributions to community benefit funds are not a satisfactory substitute for takedown requirements and will enable an

endless increase in the very billboard blight issue which this ordinance is supposedly trying to address.

Our community feels very strongly about this issue, and we are not alone: signage is in our faces every day, every time we leave our homes, and if this ordinance doesn't do the job it's supposed to do, there are going to be a lot of angry voters across the city.

Respectfully,

*Lois Becker*
