Posted in group: **Clerk-PLUM-Committee**

Dear PLUM Committee and City Council:

I am writing to express my opposition to any lessening of the current restrictions on billboards in the city of Los Angeles. I am against expansion of the sign districts. Of particular concern, are any signs, billboards or other commercial advertising in our city parks.

Advertisers should not be allowed to blanket our parks, (our places of refuge from the hustle-bustle of the city) with signs. By doing so, they deprive park users of all ages the escape from commercial intrusions which is afforded by parks. Children are particularly vulnerable and could be easily exploited by advertisers.

Our parks should not be canvasses for promotional messaging, which also invite copycat poster and graffiti blight.

Please, keep all billboards, both digital and standard, out of our parks.

Sincerely,

Mary J Button
2624 Green Oak Place
Los Angeles, CA 90068

I respectfully request Sharon Dickinson add my letter to the file for CF#11-1705.

Please add my message to the public record in Council File 11-1705:

I am opposed to any billboards on city property, digital or not, on the grounds that they are unsafe distractions to drivers and are blight on the city landscape. Thank you.
