

**MOTION**

On December 7, 2012, Ordinance No. 182326 became effective (Council File No. 11-1877-S1) to preserve open space in Council District 14. A zone change to the Open Space (OS) zone by the Council was designated to preserve lots from future development.

**I THEREFORE MOVE** that the Council instruct the Planning Department, in consultation with the City Attorney, to correct any inconsistency between the existing Open Space zone and any Low Residential land use designation in the Northeast Community Plan as previously identified pursuant to Ordinance No. 182323, inasmuch as the Council approved the re-zoning in 2012 to preserve open space in the Monterey Hills community.
