Good Morning Mr. Villanueva,

This e-mail in regard to the Motion to post "Rose Hills" signs. I am against this motion because it will only be confusing for everyone including El Sereno Residents and anyone looking for the actual "Rose Hills Cemetery". The "Rose Hills" cemetery is in the city of Whittier, CA and the name should stay with the cemetery. The city needs to focus on spending what little funds we have on things that matter and improvements that will make a difference. This seems like a pointless waste of good time, efforts and funds.

I am glad that things are trying to change in the El Sereno Community but I cannot help but say that they are trying to change things that do not need to be changed (e.g. adding Rose Hills Signs, Lombardy Hill Project).

We need to start trying to change our community in constructive ways by cleaning our streets of trash, debris, abandoned vehicles, removing graffiti, improving our community center/schools/park etc. The fact that time, money and energy is being spent on "**Signs**" and a "**name**" is **ridiculous and mindless**; it makes me feel that someone needs to adjust their priorities in the changes they make in El Sereno. Please do not go through with the Motion to change the name in certain parts of El Sereno, let's stop wasting time on things that should not even be brought to the "table" in the first place. Instead, we need to get to work on issues that matter, that our community can **actually** benefit from.

Sincerely,

Reina Gomez
