Dear City Council Transportation Committee,

I'm writing in support of funding for added safety improvements on Rowena. I am a member of the Silver Lake Neighborhood Council, but I am writing as an individual on this matter; Our Council will not meet before your vote so we could not prepare a CIS.

I'm in strong support of added safety improvements, and especially protected bike lanes. Members of our community deserve to be safe in their chosen mode of transportation, and we must engineer our streets to accommodate multi-modal transportation to help them do that. Many, many constituents have expressed this opinion to me while canvassing: It's scary to be anything other than a car on an LA road.

I am a cyclist and use my bike to commute to work a few times a week. A bike is cheaper than a car, it's better for the environment, and it's good for my mental health to exercise twice each day. I started commuting by bike to aid in the city's climate change goals. The climate change crisis is dire, and each individual needs to take action.

But the City can help, too: let's engineer our roads to decrease traffic collisions and fatalities. Funding for safety improvements on Rowena, and especially protected bike lanes, will go a long way towards helping people feel safe as they use our roads and help our climate.

Thank you,

--

Dear LA City,

My name is Mandy and I am writing in support of funding for improved safety measures on Rowena Avenue in Silver Lake.

I am currently residing on Rowena.

I just wanted to send out a supporting message to support for Rowena's street safety.

Thank you,  
Mandy
