I live in Los Feliz at the corner of St George and Rowena and am a frequent pedestrian on the stretch of Rowena that received the safety improvements aka the road diet. As a stakeholder in this issue, I am very concerned that Council member Ryu's motion to the L.A. City Council for LADOT regarding his commissioned \$88,000 "Rowena Avenue, Waverly Drive, Angus Street Cut-Through Traffic Study" is about assessing feasibility and not the effects on safety.

I want to make it clear that I support the road diet in its current form and I only support "Option 1" in the report which maintains the current lane configuration on Rowena while adding further safety measures. I want LADOT, in their evaluation of Council member Ryu's commissioned report to prioritize the effects on safety of each option presented in the study.

Sincerely
Carey Kayser
