Hello Ms. Gin,

I am a resident of the Hollywood Dell neighborhood of Hollywood. I drive by, if not walk by, the corner of Yucca and Vine on a daily basis after seeing the proposed skyscraper plans for this area (48 stories!) I felt compelled to send someone in the City Clerk's office a letter of formal protest at such grotesque planning for this community.

Please understand I am not opposed to development. Change is inevitable, necessary and even healthy. I would like to think, however, that in a city such as Los Angeles that it would be done with an eye to the future...a healthy future for this community.

I have seen rampant and unchecked development years after and it is never good. I strongly believe this development is in this nature and could have devastating impact on the local community. Think about it. If by chance, the necessary tenants needed to fill such a large structure do not materialize, then who will? I think this development has a strong possibility of becoming slum tenancy, right in the middle of a major tourist attraction for the city of Los Angeles. Isn't tourism a multimillion dollar industry for the city and the neighborhood of Hollywood? That is a bottom line that will be seriously impacted.

Thank you for taking the time to read this if you have.

A concerned citizen,
Louisa Rodriguez
