Subject: Comments to Agenda No. 5 CFI 12-0303 Hollywood Community Plan and CEQA Approval

To: Sharon Gin <Sharon.Gin@lacity.org>, The Honorable Carmen Trutanich <CTrutanich@lacity.org>

Not discussed is the Fracking of Oil Wells in or around the Community Plan, its effects on geology and subsidence, air quality and water including but not limited to NPDES permitting and TMDL Total Daily Maximum Loads.

You have no monitoring stations listed nor plans to analyze actual data collected from the City, County or other agencies to determine sourcepoints and no plans for remediation or solution to satisfy Federal regulations.

Missing is data available such as the LA County storms data and pollutant loads.
