Hello Ms. Gin and the Plum Committee;

I am writing to voice my concern about the Hollywood Community plan in its current state. I have gone to hearings and voiced my issues to what seems like people who have already made up their minds. It is unfair for the city to push a plan on residents when it does not take the feelings, thoughts or concerns of the residents in the community. Yes, there are a lot of businesses here, so what, how many of those business owners actually live here?

As a resident, I can tell you that we are subject to more street closures than anywhere else in the city, whether it's for movie premieres, marathons, peace marches, filming or whatever events the chamber decides to put its stamp of approval on. Not to say that the council districts aren't at fault here, i.e. the Hollywood half marathon which both Garcetti and LaBonge backed but never bothered to tell the people who actually live here.

We are already subject to the traffic that comes with nightclubs and the number of those clubs growing but no growth in our police services due to budget cuts. We also have some of the slowest response times in the city. On a good day traffic is bad and when you add street closures due to an event it's a living nightmare for residents and emergency services alike. The only difference is as a resident we get frustrated, but with emergency services you are speaking of human life, does the city not think that human life is important or is it just looking at dollar signs.

As a resident, I don't want any more backdoor politics, I want out front in your face we care about what the community thinks politics. You'd think with an election around the corner we'd get some honesty somewhere in city council. But hey, what do I know I am just a voter who has a long list of qualified voters on my e-mail list.

Thank you for your time.

Ms. Robin Moreno, BSW
