

The following are several letters intended for Council File 12-0303 for the Hollywood Community Plan Update

Received between April 6 and April 16, 2012

From Susan Patron

I grew up in Hollywood, attending Van Ness Avenue Elementary, Le Conte Jr. High, and Hollywood High schools. My husband and I have lived in Hollywood for 42 years.

We are opposed to the Hollywood Community Plan. We believe the proposed plan is not in proportion to the residential community, and that the Plan will result in an ugly, commercial center.

Please send the plan back to the City planning Department for further work.

Thank you.

**NO on new development in Hollywood! We cherish what we have as it is and oppose new developments and the overcrowding and traffic it will inevitable create. Protect what we have!**

The Hollywood Community Plan is based on incorrect and speculative data and needs to be recirculated or it will put the lives of millions in danger. Urban planning should be based on fact, not fiction. Community plans should be designed with the community at heart, not the interest of politicians or developers.

From Jamie Caffrey [jamicaffrey@hotmail.com](mailto:jamicaffrey@hotmail.com)

To whom it may concern,

I have lived in the Hollywood area for over 12 years. I think it would be a truly misguided step to allow the building of high rise buildings / Dense housing in the area. Change can be a good thing and it's part of LA's history to move forward, rebuild and shift however this seems like it would be a real shame there is something magical about Hollywood and the way it's built I love the fact that you don't have hugh buildings towering over you as you walk down the street or drive about. I think that from a historical point of view it really gives you a sense of the birth of hollywood and what it must have been like. I think this one reason I oppose it, for the cultural value. It's film history. The other reason is just by virtue of the scale of these proposed buildings to the rest of the buildings in Hollywood. Another reason is I just don't

believe Hollywood is equipped to handle it from an infrastructure point of view regardless of what the any data may say, I think it would make the quality of life over all less for everyone who live in the community. Hollywood is a magical place in large part because of the buildings that occupy it. I just think it's such a terrible idea to consider. I think it would take something great away that I enjoy everyday along with all the tourist of whom I was once one of. Let's not spoil Hollywood so unnecessarily and irreversibly it would be wrong for many reasons.

Sincerely,

Jamie Caffrey

From: David Impastato nihilobstat@juno.com

The so-called Hollywood Community Plan is a an urban fantasy, a sell-out, and a tragedy. It will destroy whatever is left of the human scale and flavor of our city. Please do not capitulate to monied interests and force-feed us this reckless scheme.

David Impastato

From John Brock brockja@sbcglobal.net

Ms. Gin,  
Please print and add my attached earlier letter to Mayor Villaraigosa to the materials lodged in opposition to the Hollywood Community Plan.

thank you,  
John Brock

From Nina Hiken ninahiken@yahoo.com

Dear Ms. Gin;

Attached is my protest of the Hollywood Community Plan.

Thank You,

Nina Hiken, concerned citizen and 23-year resident of the Holly Dell
