Subject: **Funding to revise the City's Zoning Code.**
[Council File No. 12-0460](#)

The Tarzana Property Owners Association strongly supports the effort by the City Planning Department to revise the Zoning Code. The current code was first adopted in 1946; the many revisions over the past 66 years have transformed the document into an arcane, unmanageable 600+ page book with conflicting regulations. It is an extremely difficult document to understand and follow, both for the City officials charged with enforcing the code and the citizens trying to understand its provisions.

We request that the PLUM committee approve the funding request so that the revision effort can commence as soon as possible.

Thank You
