With the CAO now asking for personnel to be fired due to additional debt and unrealized revenue, why are you risking the City General Fund, at this time, to incur Debt Service without any anticipation of revenue as you change the system and interrupt the flow of booking. The system currently established dealt with the criteria of travel limitations and convention booking in the economic situation of the day.

The economic situation is NOT rosier.

This action has already affected the Convention Center personnel as they retire and leave voluntarily. Service is threatened.

This is not Governance, it is suicide. You are sending the City into a path to bankruptcy.

You need to consider your constituents, the taxpayers and the voters.
