**PURPOSE**

The attached Resolution recommends to the Los Angeles City Council approval for the sale at public auction of real property, owned by the City of Los Angeles (City) and under the control of LADWP, located at 789 Home Street, City of Bishop, Inyo County, California.

The property will be sold in accordance with the attached Notice of Sale or subsequent notices of sale in conformance with all legal requirements and the terms set forth in the attached Resolution.

**COST AND DURATION**

Advertising costs for publishing the Notice of Sale and administrative costs to hold the auction and process the sale, estimated at \$8,000.

**BACKGROUND**

Water Operations Division has determined that certain City-owned property under the control of LADWP, as identified herein, is no longer needed for the purposes it was acquired (contributing to the production and delivery of water and electric power, and for the promotion of the conservation of water and power resources), and the divestiture of said property is in the best interest of LADWP and its operations for the City. This determination is consistent with the policies and past practices of LADWP to divest itself of land holdings located within existing communities that are not needed for operational purposes, and the divestment of such property into private ownership is for the betterment of the community.

Said property, consisting of approximately 2.8 acres, has been continuously leased as a floral nursery since 1974. The current lessee and LADWP have mutually agreed that it would be in the best interest of both parties to offer said property for sale at public auction. Under the provisions of government code Sections 50300 through 50308, the lessee will be given first right of refusal to match the highest bid received at public auction.

The property is located within the City of Bishop and has access to the community water system, which permits the City to reserve all water rights. In addition, the property will be sold subject to the existing lease with Bishop Nursery, Inc., which expires on February 28, 2021.

LADWP Real Estate staff performed a valuation of the property and estimated the fair market value to be \$528,000. It is recommended that the minimum bid be set at this price; however, in order to ensure that the minimum bid is current at the time of auction, the Resolution and Ordinance request that the Board and City Council authorize the General Manager to have LADWP update the value, if necessary, and adjust the minimum bid to be consistent with the updated value prior to auction.

#### **ENVIRONMENTAL DETERMINATION**

A Phase I environmental assessment was performed by Tetra Tech, and due to the historical use of the property as a nursery, which may include the storage of hazardous materials, it was recommended that a Phase II assessment be conducted. Results of the Phase II assessment found trace amounts of metals in the soil and groundwater, but no further action was recommended. LADWP will disclose the environmental findings and make them accessible to all interested parties via LADWP's website and at its Bishop Administrative Office. The findings will be used to establish a base line condition for the property, which will be sold "as is."

In accordance with the California Environmental Quality Act (CEQA), it has been determined that the sale of surplus City-owned property is categorically exempt pursuant to Article III, Class 12, in the CEQA Guidelines, and is further exempt under 14 California Administrative Code, Section 15312 (Class 12) Surplus Government Property Sales.

#### **RECOMMENDATION**

It is requested that your Honorable Board adopt the attached Resolution recommending the Los Angeles City Council's approval of an Ordinance authorizing the sale at public auction of the City-owned property located at 789 Home Street, City of Bishop, Inyo County, California.

Subject: **PROPOSED PUBLIC AUCTION SALE OF APPROXIMATELY 2.8 ACRES OF LAND LOCATED IN THE CITY OF BISHOP, CALIFORNIA**

---

### SUMMARY

Department of Water and Power (DWP; Department) requests approval of a proposed resolution which authorizes the sale at public auction of approximately 2.8 acres of City of Los Angeles (City) owned land, excluding all water rights, located at 789 Home Street in the City of Bishop, California. It has been determined by the DWP that the property is not required for current or future Water System purposes. To assist with establishing a minimum bid amount, the DWP contracted with a third party appraiser in June 2008 that determined the fair market value at \$600,000. Due to delays caused by environmental testing, DWP Real Estate staff subsequently performed a valuation in April 2011 that reduced the value (and minimum bid) to \$528,000. It was noted by DWP that the sale is at the request of the current Lessee, who has first right of refusal for the property, and they have not opposed the Department's minimum bid amount.

Approval of the proposed resolution and related ordinance will authorize the General Manager to further update the value, if necessary, and adjust a minimum bid to be consistent with an updated value prior to auction. Charter Section 675(d)(2) requires Council approval to sell, lease, or otherwise dispose of, or in any manner withdraw from the control of the Board of Water and Power Commissioners real property. The City Attorney has approved the proposed resolution as to form and legality.

Since 1974, the land has been leased and operated as a floral nursery. In 2005, the DWP entered into a 17 year lease (CF 05-1029) with Bishop Nursery, Inc. (Lessee) that expires in 2021. As a result, the property will be sold subject to the existing lease. In accordance with California Government Code Sections 50300 through 50308, the Lessee will be given first right of refusal to match the highest bid received at public auction.

The results of an environmental assessment found trace amounts of metals in the soil and groundwater; however, no further action was recommended. Prior to auction, DWP will disclose the environmental findings and make them accessible to all interested parties via DWP's website and

administrative office located in Bishop. The findings will be used to establish a base line condition for the property which will be sold "as is." In accordance with the California Environmental Quality Act (CEQA), the sale of surplus City owned property is categorically exempt pursuant to Article III, Class 12, in the CEQA guidelines, and is further exempt under 14 California Administrative Code, Section 15312 (Class 12) for Surplus Government Property Sales.

Upon review of the attached DWP request, it is the opinion of this Office that the item can be approved as the requested action appears to be reasonable and in accordance with City policies and procedures.

### **RECOMMENDATION**

That the Mayor:

1. Approve the proposed resolution which authorizes the sale at public auction of approximately 2.8 acres of City of Los Angeles owned land, excluding all water rights, located at 789 Home Street, Bishop, California; and
2. Return the proposed resolution to the Department for further processing, including Council consideration.

### **FISCAL IMPACT STATEMENT**

Approval of the proposed resolution may result in a yet to be determined amount of revenue to the Water Revenue Fund. Since the Department of Water and Power is bound only by the City Debt Management Policies, the City Financial Policies are not applicable. Approval of the proposed resolution will have no impact on the City's General Fund.

### **TIME LIMIT FOR COUNCIL ACTION**

Pursuant to Charter Section 675(d)(2), "Powers and Duties of the Board – Real Estate Interests," subject to the water rights of the City, there is no time limit for Council action on agreements for real property or any rights in real property held by DWP that will be sold, leased or withdrawn from the Department's control.
