Summary: The STNC does not support changing this site to an affordable housing project. The area is presently next door to L.A. Fire Station 24 and used for City of L.A. Street Services / Public Works. It would be a tremendous loss in City Services to lose this site to a housing development. Perhaps splitting the property to retain some of what the site is currently used for and commercial use for the equestrian community would be feasible. This area is prone to flooding and surrounded by equestrian trails.
