EDUCATION & NEIGHBORHOODS
(and) L.A. City Council
c/o City Clerk

Honorable Council Members,

I support passage of the proposed "subdivision policy" for L.A. City Neighborhood Councils as unanimously approved by the Board of Neighborhood Commissioners in October 2013, now moving through City Council and committees (Council File #12-1681). I am also urging my councilmember to vote its approval if/when it reaches the full council.

Most L.A. neighborhood councils (NCs) were formed more than a dozen years ago when they couldn't know what their duties and advisory roles would really develop into. Much has changed since then and some, in retrospect were configured too large, or may be too mired in the contention of representing multiple neighborhoods, to fill that role. The City's Plan and Charter were always supposed to allow NCs to adjust the makeup of their boundaries to make them more "effective and efficient," but the policy that would direct this wasn't completed until this past year. That "subdivision policy" has now received overwhelming approval within the NC system. Now we ask YOUR approval of this grass roots, democratic NC subdivision policy – a solution moved through the system FROM THE GROUND UP, with approvals at every level.

Thank you, in advance, for voting to support this motion.

Education and Neighborhoods Committee
Los Angeles City Council
c/o City Clerk

Honorable Council Members

We support passage of the proposed "subdivision policy" for the Los Angeles City Neighborhood Councils which was approved by the Board of Neighborhood Commissioners in October, 2013. This is Council File #12-1681 and we are also asking our Councilman Huizar to vote for approval when it comes before the full council.

Neighborhood Councils were formed over 10 years ago to give the citizens of Los Angeles an opportunity to participate in and a voice in the governing of their own neighborhoods which was a marvelous idea. But much has changed since that initial formation as communities grow, change and develop over the years and the needs of the stakeholders also change and need to be addressed. In order for Neighborhood Councils to remain viable, vibrant and meaningful, they need to be able to change and evolve to meet the needs of the stakeholders living in their areas. The proposed subdivision policy would allow this to happen. We ask that you vote for approval of this subdivision policy and thank you in advance for your support.
